GRANDLAND X FEATURES/OPTIONS

SAFETY

Driver / passenger airbags

- Driver's and front passenger's airbags • Front seat side-impact airbags
- Full-size curtain airbags for driver, front seat passenger and outer rear seat passengers

Seating

- Height-adjustable front seat head restraints • Height-adjustable rear seat head restraints
- Anti-submarining ramps in front seats

Seatbelts

- Inertia-reel lap and diagonal seatbelts for all seats • Dual seatbelt pretensioners on front seats – *These keep the pelvis better coupled to the vehicle in an impact; the pelvis and therefore the legs are allowed less forward movement, reducing the risk of hard knee contact with the fascia.*
- Pretensioners on outer rear seatbelt retractors • Load limiters on outer rear seatbelt retractors
- Smart seatbelt reminder for front and rear seats – *Warning lights and audible warning*

Child safety

- Deactivation switch for front passenger's front and side-impact airbags – *Permits the safe use of a child seat in the front passenger seat* • i-Size compatible child seat mountings located on front passenger's seat and outer rear seats (does not include child seat). Rear seat mountings incorporate top tether anchor points – *Allows i-Size child safety seats to be securely fixed into the car. The mounting system reduces forward movement in an accident and makes the child seat easier to install.* • Child-proof locks on rear doors

Driver / passenger safety

- Energy-absorbing steering column • Side-impact protection beams • Reinforced passenger safety cell • Deformation zones front and rear

Pedestrian safety

- Collapsible windscreen wiper system – *Designed to reduce pedestrian head injuries.*
- Upper and lower bumper design – *Reduces upper and lower leg injuries*

Braking and stability

- Switchable Electronic Stability Programme (ESP) • Anti-lock Braking System (ABS)
- Corner stability control • Traction control • Hill start assist • Engine drag torque control – *Improves directional stability by preventing the driven wheels from locking on slippery surfaces under the influence of engine braking.* • Hydraulic brake assist • Electronic brakeforce distribution

Tyre pressure

- Deflation detection system

| Cruise control with speed limiter and intelligent speed adaptation <i>The cruise control feature enables you to maintain a constant speed – making it ideal for economical motorway driving. The speed limiter function can be set to ensure that you do not exceed the speed limit and can be easily overridden if required. Working in conjunction with speed sign recognition, when a new speed limit is detected a message appears in the driver information display. You can then set the cruise control to the new speed limit with a simple press on a steering wheel button.</i> • Steering wheel mounted controls | ● | ● | ● | ● | | | |

|---|--|----|---------------|-----------|-----------|----------|--------------------|--------------------|
| Safety Pack The front camera and radar systems combine to enhance the driver assistance and safety features. Driver drowsiness system: The system monitors driving time and driving behaviour to help prevent accidents caused by tiredness. Forward collision alert with automatic emergency braking and pedestrian detection: The system operates automatically from 3mph and gives an audible warning as well as a visual warning when approaching another vehicle too quickly. If no avoiding action is taken by the driver, at speeds below 19mph the system automatically slows the vehicle to a full stop with emergency braking of 0.9g. At speeds from 19mph to 87mph it brakes automatically to reduce speed by a maximum of 31mph – to reduce speed even further the driver must brake him/herself. The operational speed range of the system depends on the detected obstacle (mobile target: from 3 to 87mph; fixed target: from 3 to 50mph; pedestrian: from 3 to 37mph). Vauxhall driver assistance systems are intended to support the driver within the system-imminent limitations. The driver remains responsible for the driving task. Lane departure warning with lane assist: When lane departure warning identifies an imminent lane departure without driver input, lane assist applies gentle steering corrections to keep the vehicle within its lane. The system operates from 40mph. | | | | | | | | |
| Parking sensors • Rear parking distance sensors • Audible warning | | ● | | | | | | |
| Park and Go Pack One An audible warning alerts you to obstacles in front of and behind you. A series of beeps are sounded as you approach the obstacle, increasing in frequency as the distance closes. • Front and rear parking distance sensors • Audible warning • Electrically foldable door mirrors with puddle light  | | ○ | ● | ● | | | 229.17 | 275.00 |
|  Easier parking | | | | | | | | |
| Advanced park assist: Advanced park assist not only detects suitable parking spaces but also expertly steers into them for you. All you have to do is to drive forward or reverse and brake. The system works with both parallel and bay parking. • Front and rear parking distance sensors • Ultrasonic side sensors identify suitable parking spaces at speeds up to 12mph • Fully automated steering • Detailed forward/reverse instructions are shown in the instrument cluster  Finds suitable parking spaces  Auto steers into the parking space for you | | | | | ● | | | |
| 360° panoramic camera – incorporating advanced park assist: The camera gives a clear view of the area all around your car and helps place the car perfectly, without needing to strain your neck. • The 360° panoramic view detects traffic coming from the side, helping you reverse out of perpendicular parking spaces more safely • Overhead view allows you to see clearly how close you are to obstacles in front of and behind you • Activated when reverse gear selected, or when switched on manually • Camera view appears in infotainment screen • View switches automatically between front and rear based upon direction of travel • Rear bumper and grid lines shown as reference points  See what's around you on the central screen | | | | | | ● | | |

At speeds below 18mph the projector units swivel 8° outwards for improved visibility. • Motorway light – At higher speeds, and with a low level of steering inputs, the light range is increased. • Country light – At speeds between 34mph and 71mph the lighting is increased ahead and to the sides of the road. • Static cornering light – At lower speeds, when you indicate and turn the steering above a certain angle, corners and bends are illuminated to match steering inputs. • Dynamic curve light – The projector units swivel in the direction of travel based on steering angle and vehicle speed. • Adverse weather light – The projector units swivel outwards to increase illumination of the side of the road and road signs, and to reduce the dazzling of oncoming traffic. • Intelligent main beam control – Powerful down-the-road illumination on top of the LED low beam. Automatically switches between low beam and full beam based on traffic conditions. • Automatic headlight levelling | ○ | ○ | ○ | ○ | ● | 916.67 | 1100.00 |

GRANDLAND X SPECIFICATIONS

START/STOP TECHNOLOGY

Grandland X's Start/Stop system, fitted as standard to all models, offers real benefits by improving fuel economy and reducing CO₂ emissions, particularly in town. It does this by automatically stopping the engine when you come to a standstill, and then restarting as you prepare to move off.

Before automatically stopping the engine a number of system checks are carried out to ensure that it is both safe and practical to do so. To ensure safety, the driver must depress the clutch pedal, shift in to neutral, and then release the clutch pedal.

System checks carried out before Auto Stop activates include:

- Start/Stop system is not manually deactivated via the facia button
- Sufficient brake vacuum is available to prevent the car rolling down an incline
- Battery is in good condition and charged
- Outside air temperature and engine temperature are above specified minima
- Electronic climate control (where fitted) is not in maximum heating or maximum cooling mode
- Self-cleaning function of the diesel particulate filter is not active

If all of these conditions are satisfied then the vehicle will Auto Stop.

When you are ready to pull away from standstill, Auto Restart is activated by depressing the clutch pedal.

Whilst at a standstill the vehicle is continually monitored. If necessary, the engine will automatically be restarted. Conditions that would initiate an Auto Restart include:

- Low battery level
- Brake vacuum below specified minimum
- Start/Stop system is manually deactivated
- Stationary for 5.5 minutes

tba = to be advised.

Gross vehicle weight is the total permissible weight of the vehicle including passengers and their luggage. The maximum roof rack loading should not exceed 85kg. The maximum towing weights are based on the ability of the car, with two occupants of 75kg each, to restart on a 12% gradient, which is approximately 1 in 8.3, at sea level. At altitudes above 1500 metres, the engine output may drop with a corresponding reduction in towing capability. Any extra weight, such as luggage or additional passengers, should be deducted from the maximum towing weight. With a trailer fully loaded, maximum noseweight should not exceed 70kg. Always fit Vauxhall towing attachments and accessories available from your Vauxhall Retailer. They are designed specifically for Vauxhall models and carry a 12-month guarantee. tba = to be advised.

BENEFIT IN KIND COMPANY CAR TAXATION†

The car benefit charge will be the car's list price (including VAT, options and accessories fitted, delivery to Retailer and number plates, but excluding Vehicle Excise Duty and new vehicle first registration fee) multiplied by the percentage charge for the CO₂ emissions band in which the car falls (see table opposite). Multiply this figure by your personal income tax rate (20% for Basic Rate, 40% for Higher Rate) to calculate your annual benefit in kind tax liability.

Example:

| | |
|--|-----------|
| Grandland X Tech Line Nav 1.6 (120PS) | |

GRANDLAND X ADDITIONAL INFORMATION

ON-THE-ROAD PRICES

To eliminate uncertainty about hidden costs when buying a new car, Vauxhall publishes on-the-road recommended retail prices (RRP) and these are shown in the pricing tables within this price guide. These prices include VAT, number plates and delivery to Retailer of £700.00 (including £116.67 VAT), 12 months' Government Vehicle Excise Duty (see opposite for details) and the DVLA new vehicle first registration fee of £55.00*.

Please note: The on-the-road recommended retail price (RRP) does not include fuel supplied by the Retailer, motor insurance or any other goods or services supplied by agreement between the Retailer and the customer.

PRICE PROTECTION

Order a new Vauxhall for build in the current model year (as confirmed by your Retailer) for delivery no more than three months in advance and the price you are quoted is the price you pay. This is irrespective of any subsequent price rises between placing your order and delivery of your new car, but you must take delivery as soon as the car is available. Vauxhall Motors Limited is not liable for price adjustments caused by Government changes in the rate of VAT (currently 20%), Vehicle Excise Duty, DVLA new vehicle first registration fee or by any other applicable legislation or regulations.

VEHICLE EXCISE DUTY

The amount of Vehicle Excise Duty (road fund licence) payable on new cars varies depending on the level of carbon dioxide (CO₂) emissions produced by the vehicle. CO₂ emissions are measured in grammes (g) per kilometre (km) travelled and divided into 13 charging bands shown in the table below.

A 'first year rate' of Vehicle Excise Duty is payable on all new cars and in subsequent years the amount payable reverts to the 'standard rate'. From 1 April 2017 the breakpoints for each of these bands have been revised. Also, for vehicles with a list price over £40,000, including factory-fitted options, an additional £310 is payable for the first five years of standard rate payments.

Vehicle Excise Duty*

| | CO ₂ emissions (g/km) | First year rate | Standard rate |
