STANDARD FEATURES

ALL MODELS

Driver/passenger airbags

- Driver's and front passenger's airbags • Front seat side-impact airbags
 - Full-size curtain airbags for driver, front seat passenger and outer rear seat passengers
-

Seating

- Height-adjustable front seat head restraints • Height-adjustable rear seat head restraints
 - Anti-submarining ramps in front seats
-

Seatbelts

- Inertia-reel lap and diagonal seatbelts for all seats
 - Dual seatbelt pretensioners on front seats – These keep the pelvis better coupled to the vehicle in an impact; the pelvis and therefore the legs are allowed less forward movement, reducing the risk of hard knee contact with the fascia
 - Pretensioners on outer rear seatbelt retractors • Load limiters on outer rear seatbelt retractors
 - Smart seatbelt reminder for front and rear seats – Warning lights and audible warning
-

Child safety

- Deactivation switch for front passenger's front and side-impact airbags – Permits the safe use of a child seat in the front passenger seat.
 - i-Size compatible child seat mountings located on front passenger's seat and outer rear seats (does not include child seat). Rear seat mountings incorporate top tether anchor points – Allows i-Size child safety seats to be securely fixed into the car. The mounting system reduces forward movement in an accident and makes the child seat easier to install
 - Child-proof locks on rear doors
-

Driver/passenger safety

- Energy-absorbing steering column • Side-impact protection beam
 - Reinforced passenger safety cell • Deformation zones front and rear
-

Pedestrian safety

- Collapsible windscreen wiper system – Designed to reduce pedestrian head injuries
 - Upper and lower bumper design – Reduces upper and lower leg injuries
-

Braking and stability

- Switchable Electronic Stability Programme (ESP) • Anti-lock Braking System (ABS)
 - Corner stability control • Traction control • Hill start assist
 - Engine drag torque control – Improves directional stability by preventing the driven wheels from locking on slippery surfaces under the influence of engine braking.
 - Hydraulic brake assist • Electronic brakeforce distribution.
-

Tyre pressure

- Deflation detection system
-

STANDARD FEATURES

ALL MODELS

Electric parking brake

- Centre console switch in lieu of handbrake lever
-

Steering

- Speed-sensitive electric power-assisted steering
-

Speed sign recognition

- Detects and then displays speed limits, reducing uncertainty and the risk of speeding.
 - Recognises different speed signs, including temporary speed restrictions
 - Displays reminder in the instrument cluster
 - On Nav models, where the front camera system is unable to detect any speed signs the speed limit stored in the navigation database will be displayed
-

Security features

- Remote control security alarm system (operates in conjunction with central locking)
 - Electronically protected audio equipment • Engine deadlock immobiliser
 - Visible Vehicle Identification Number (VIN) • Locking wheel nuts
 - Luggage compartment cover
-

Remote control central locking

- Operates on doors, tailgate and fuel filler flap • Deadlocking
 - Driver's internal central locking activation switch
-

Instrumentation

- Speedometer • Rev counter • Fuel gauge with low fuel level warning light
 - Water temperature gauge with warning light
 - Shift-up indication light (manual models only) – Indicates when to change gear for optimum fuel economy
-

Driver information display (centrally located in instrument cluster)

- Displays trip computer data • Total mileage • Service-due indicator
 - Deflation detection system • 3.5-inch colour information display
-

Multi-function trip computer (displayed on driver information display)

- Trip mileage • Vehicle range based on remaining fuel • Average speed
 - Average fuel economy • Instantaneous fuel economy
-

Central facia display (format dependent on infotainment unit)

- Audio information • Digital clock with automatic RDS time adjustment
 - Outside air temperature with ice warning function
 - Additional features dependent on infotainment unit (see infotainment for details)
-

Seating and comfort

- Reach and rake adjustable steering • Steering wheel mounted audio controls • Three-person layout
 - 60/40 split-folding rear seat • Height-adjustable and removable head restraints
 - Centre rear seat head restraint
-

Electronic climate control incorporating air conditioning

- Dual-zone control – Allowing different temperature settings for driver and front passenger.
 - Advanced predictive logic control system using a sun sensor
 - Charcoal filter – Removes dust, airborne particles, pollen and unpleasant odours
 - Automatic air direction and fan speed with manual override • Illuminated controls
-

Additional heating and ventilation features

- Four adjustable facia vents • Windscreen demist vents • Side window demist vents
 - Rear passenger compartment heating ducts • Heated rear screen with timed cut-off
-

Interior convenience features

- Front 12-volt electrical accessory socket • 12-volt electrical accessory socket in luggage compartment
 - Front and rear passenger assist handles • Automatically dimming anti-dazzle rear-view mirror
 - Driver's centre armrest
-

Please note, Grandland X Hybrid4 models include the standard features as detailed above.

<p>Cruise control with speed limiter and intelligent speed adaptation</p> <p>The cruise control feature enables you to maintain a constant speed – making it ideal for economical motorway driving. The speed limiter function can be set to ensure that you do not exceed the speed limit and can be easily overridden if required. Working in conjunction with speed sign recognition, when a new speed limit is detected a message appears in the driver information display. You can then set the cruise control to the new speed limit with a simple press on a steering wheel button.</p> <ul style="list-style-type: none"> • Steering wheel mounted controls 	●	●	●	●

<p>Safety Pack</p> <p>The front camera and radar systems combine to enhance the driver assistance and safety features.</p> <p>Driver drowsiness system</p> <p>The system monitors driving time and driving behaviour to help prevent accidents caused by tiredness.</p> <p>Forward collision alert with automatic emergency braking and pedestrian detection</p> <p>The system operates automatically from 3mph and gives an audible warning as well as a visual warning when approaching another vehicle too quickly. If no avoiding action is taken by the driver, at speeds below 19mph the system automatically slows the vehicle to a full stop with emergency braking of 0.9g. At speeds from 19mph to 70mph it brakes automatically to reduce speed by a maximum of 31mph – to reduce speed even further the driver must brake him/herself. The operational speed range of the system depends on the detected obstacle (mobile target: from 3 to 70mph; fixed target: from 3 to 50mph; pedestrian: from 3 to 37mph). Vauxhall driver assistance systems are intended to support the driver within the system-imminent limitations. The driver remains responsible for the driving task.</p> <p>Lane departure warning with lane assist</p> <p>When lane departure warning identifies an imminent lane departure without driver input, lane assist applies gentle steering corrections to keep the vehicle within its lane. The system operates from 40mph.</p>

#Fuel consumption figures are determined according to the WLTP test cycle. Full data relating to WLTP test cycles can be found at: www.vauxhall.co.uk/wltp

*CO₂ emissions figures are determined according to the WLTP test cycle however, a Government formula is then applied to translate these figures back to what they would have been under the outgoing NEDC test cycle, which WLTP replaces. The correct tax treatment is then applied.

Figures are intended for comparability purposes only. The fuel consumption you achieve under real life driving conditions and CO₂ produced will depend upon a number of factors, including the accessories fitted after registration, variations in driving styles, weather conditions and vehicle load. Only compare fuel consumption and CO₂ with other vehicles tested using the same technical procedures. For more information contact your local Vauxhall Retailer.

SPECIFICATIONS

Start/Stop technology

Grandland X's Start/Stop system, fitted as standard to all models, offers real benefits by improving fuel economy and reducing CO₂ emissions, particularly in town. It does this by automatically stopping the engine when you come to a standstill, and then restarting as you prepare to move off.

Before automatically stopping the engine a number of system checks are carried out to ensure that it is both safe and practical to do so. To ensure safety, the driver must depress the clutch pedal, shift in to neutral, and then release the clutch pedal. System checks carried out before Auto Stop activates include:

- Start/Stop system is not manually deactivated via the facia button
- Sufficient brake vacuum is available to prevent the car rolling down an incline
- Battery is in good condition and charged
- Outside air temperature and engine temperature are above specified minima
- Electronic climate control (where fitted) is not in maximum heating or maximum cooling mode
- Self-cleaning function of the diesel particulate filter is not active

If all of these conditions are satisfied then the vehicle will Auto Stop.

When you are ready to pull away from standstill, Auto Restart is activated by depressing the clutch pedal.

Whilst at a standstill the vehicle is continually monitored. If necessary, the engine will automatically be restarted. Conditions that would initiate an Auto Restart include:

- Low battery level
- Brake vacuum below specified minimum
- Start/Stop system is manually deactivated
- Stationary for 5.5 minutes

Fuel tank capacity

- 53 litres (11.6 gallons)

Adblue tank capacity

- 17 litres (3.7 gallons)

*Hybrid4 models.

Gross vehicle weight is the total permissible weight of the vehicle including passengers and their luggage. The **maximum roof rack loading** should not exceed 75kg on all models. The **maximum towing weights** are based on the ability of the car, with two occupants of 75kg each, to restart on a 12% gradient, which is approximately 1 in 8.3, at sea level. The permitted trailer load applies up to the specified incline and up to an altitude of 1000 metres above sea level. The permissible gross train weight decreases by 10% for every 1000 metres of additional altitude. Any extra weight, such as luggage or additional passengers, should be deducted from the maximum towing weight. With a trailer fully loaded, **maximum noseweight** should not exceed 75kg. Always fit Vauxhall towing attachments and accessories available from your Vauxhall Retailer. They are designed specifically for Vauxhall models and carry a 12-month guarantee. During trailer towing do not exceed a maximum speed of 60mph. This speed limit is also applicable in countries with higher permitted speeds for trailer-vehicle combinations. Pay attention to the local speed limits. For trailers with low driving stability and caravans the use of an oscillation damper is strongly recommended.

SPECIFICATIONS

Electrified Transmission

The 8-speed electrified transmission system is standard on the Hybrid4 and offers both smooth transition between gears. The 8-speed electrified gearbox includes the following content:

- Multi-disc wet clutch replaces removed torque convertor
- Permanent electric motor that transforms electric energy into mechanical drive energy
- Electric motor installed into the gearbox and petrol engine
- Comes with intuitive and stylish Automatic gearbox with electric shifter with shift paddles

Drive Mode Selector

The Drive Mode selector is positioned next to the Automatic gearbox with electric shifter and enables drivers to select one of the following:

- Hybrid is the default mode and offers the best of both worlds between controlled fuel consumption and on-road performance
- AWD activates the engine and electric engine to provide AWD and improve grip on rough surfaces
- Sport Mode, draws on the combined power of the engine and motor for a more dynamic drive
- Electric activates the electric engine only, for zero CO₂ emissions and complete silence

All-Wheel Drive Electrified Rear Axle

The Electrified Rear Axle is exclusive on the AWD drivetrain and includes the following:

- Additional power of 80 kW and torque boost of 166 Nm for 10 seconds
- Contains an electric motor, inverter and reducer
- Rear axle cross member modified by an electrified multi-arm axle

Fuel tank capacity

- 43 litres (9.4 gallons)

Weights

Kerbweight: 1800kg

Charging

- Grandland X Hybrid4 comes fitted with a Mode 3, 7.4kW cable and a 3.7kW on-board charger as standard.
- A 7.4kW on-board charger can be purchased as an option for £500 inc VAT.

This option halves the vehicle charging time when charging with a 7kW wallbox.

Please note: A Mode 2 cable (standard UK socket*) would charge the vehicle in less than 8 hours.

Grandland X Hybrid4 charging time examples are listed showing time's dependant on the various powers of charge point which the vehicle is plugged into.

Benefit in kind company car taxation†

The car benefit charge will be the car's list price (including VAT, options and accessories fitted, delivery to Retailer and number plates, but excluding Vehicle Excise Duty and new vehicle first registration fee) multiplied by the percentage charge for the CO₂ emissions band in which the car falls (see table opposite). Multiply this figure by your personal income tax rate (20%^{††} for Basic Rate, 40%^{††} for Higher Rate) to calculate your annual benefit in kind tax liability.

Example:

Grandland X Business Edition Nav 1.5 (130PS) Turbo D (CO₂ emissions 108g/km)

On-the-road RRP	£25,475.00
Deduct: Vehicle Excise Duty	(£170.00)
New vehicle first registration fee	(£55.00)
Effective list price	£25,250.00
Add: Optional two-coat metallic paint	£570.00
List price for tax purposes (P11D value)	£25,820.00
Car benefit charge 2019–20 tax year (29%)	£7,488.00
Benefit in kind tax liability (2019–20 tax year)	
Basic Rate (20%) tax payer	£1,497.60
Higher Rate (40%) tax payer	£2,995.20

†Please note this Price Guide provides taxation information as a guide only. Vauxhall does not provide taxation guidance. Drivers should always take professional advice on their own tax position.

††Excludes residents of Scotland.

BIK FOR SCOTTISH RESIDENTS

Effective 6 April 2018 the Scottish Government have introduced their own BIK taxation structure. This only applies to Company Car Drivers that are Scottish taxpayers. HMRC will determine whether or not an individual is a Scottish taxpayer based on where their main place of residence is.

The BIK rates for Scotland are:

- Over £12,500–£14,549 Starter Rate 19%
- Over £14,549–£24,994 Basic Rate 20%
- Over £24,994–£43,430 Intermediate Rate 21%
- Over £43,430–£150,000 Higher Rate 41%
- Above £150,000 Top Rate 46%

FURTHER INFORMATION

On-the-road prices

To eliminate uncertainty about hidden costs when buying a new car, Vauxhall publishes on-the-road recommended retail prices (RRP) and these are shown in the pricing tables within this price guide. These prices include VAT, number plates and delivery to Retailer of £700.00 (including £116.67 VAT), 12 months' Government Vehicle Excise Duty (see opposite for details) and the DVLA new vehicle first registration fee of £55.00.*

Please note: The on-the-road recommended retail price (RRP) does not include fuel supplied by the Retailer, motor insurance or any other goods or services supplied by agreement between the Retailer and the customer.

Price protection

Order a new Vauxhall for build in the current model year (as confirmed by your Retailer) for delivery no more than three months in advance and the price you are quoted is the price you pay. This is irrespective of any subsequent price rises between placing your order and delivery of your new car, but you must take delivery as soon as the car is available.

Please note: Price protection does not apply to Corsa-e/Grandland X hybrid models. Vauxhall Motors Limited is not liable for price adjustments caused by Government changes in the rate of VAT (currently 20%), Vehicle Excise Duty, DVLA new vehicle first registration fee or by any other applicable legislation or regulations.

Vehicle Excise Duty

The amount of Vehicle Excise Duty (road fund licence) payable on new cars varies depending on the level of carbon dioxide (CO₂) emissions produced by the vehicle. CO₂ emissions are measured in grams per kilometre (g/km) travelled and divided into 13 charging bands shown in the table opposite.

A 'first year rate' of Vehicle Excise Duty is payable on all new cars and in subsequent years the amount payable reverts to the 'standard rate'. From 1 April 2017 the breakpoints for each of these bands have been revised. Also, for vehicles with a list price over £40,000, including factory-fitted options, an additional £320 is payable for the first five years of standard rate payments.
