[Further information](#)

The new-look Movano retains impressive workload credentials. With a diverse range of body styles, up to 17m³ of cargo volume and a payload of up to two tonnes it's never been afraid of hard work. The introduction of a totally new, fully electric powertrain that produces 272PS and 410Nm of torque means both improved performance and up to 261 miles range (WLTP). A range of highly efficient turbo-diesel units completes the drivetrain line-up while a new hydrogen fuel cell variant due in 2024 will take things even further.

New advanced driver assistance systems are also available that enable level 2 automated driving for the first time. The redesigned cockpit features new infotainment systems with up to 10-inch colour touchscreens and wireless smartphone connectivity alongside an optional 230v dashboard charging socket. We're delighted you're considering the purchase of a new Movano and hope this guide will help you make the right choice for your business.

Please note, New Movano Conversions are excluded from this guide and will be covered separately. Please consult your Retailer for details.

Prime

Full-diameter wheel covers.*

16-inch alloy wheel.*

Standard Prime features include:

Infotainment

- Multimedia navigation system (Electric)
 - 10-inch colour touchscreen
 - Fully integrated TomTom® satellite navigation system
 - AM/FM/DAB digital radio
 - Bluetooth®
 - Apple CarPlay/Android Auto™
 - 2x USB connections
 - Natural voice control

Multimedia (Diesel)

- 5-inch colour display
- AM/FM/DAB digital radio
- Bluetooth®
- Voice control
- USB connection

Vauxhall Connect (Electric)

Interior convenience/styling

- 7-inch digital instrument cluster (Electric)
- Manual air conditioning (Diesel)
- Automatic air conditioning (Electric)
- Cruise control with variable speed limiter (Diesel)
- Two cupholders/phone storage
- Electronic parking brake (Electric)
- Keyless entry and go (Electric)
- Electronic power steering
- Six-way driver's seat with lumbar adjustment
- Driver's seat armrest
- Dual passengers' bench seat

Exterior convenience/styling

- Rear parking distance sensors
- Side-protection mouldings
- Electrically adjustable/heated door mirrors with twin lenses
- Electrically operated front windows
- Nearside sliding side-access door
- Twin unglazed rear doors (180° opening)
- 15-inch steel wheels with centre caps (3500 models)
- 16-inch steel wheels with centre caps (3500 Heavy/4000 models)
- Emergency tyre inflation kit

Safety/security

- Rear-view camera
- Remote control security alarm system
- Driver's airbags
- Double passenger's airbags
- Electronic stability control
- Full-height steel bulkhead
- Remote control central deadlocking
- Tyre pressure monitoring system
- Advanced emergency braking system
- Lane support system
- Traffic sign recognition
- Driver drowsiness detection
- Intelligent speed assist

Glazed Panel Van

Additionally feature

- Twin glazed rear doors (180° opening)
- Glazing to row 2, 3 and nearside sliding side loading door

*Optional at extra cost. For more details see Exterior style, click [here](#)

Safety features

1. Intelligent speed assist incorporating traffic sign recognition

Sets and automatically adjusts the speed to maintain a safe distance from vehicles ahead, providing functionality between 19 mph and the vehicle's top speed. In conjunction with traffic sign recognition, the system can recommend that the driver adjust their speed according to the speed limit detected.

2. Rear-view camera

Updated rear view-camera offers improved resolution on the Infotainment screen and, using a digital signal, displays dynamic grid

lines to assist with parking manoeuvres. Further assistance can be provided whilst driving by opting for the optional digital rear-view mirror.*

3. Electronic Stability Control (ESC)

ESC has been upgraded in new Movano to include the following three features:

Cross wind assist – Works at speeds over 40 mph and intervenes on braking to help stabilise the vehicle through strong crosswinds, helping the vehicle to avoid drifting out of its lane.

Trailer stability control system – The system is able to detect when the trailer is starting to oscillate and corrects any dangerous trailer swing, through a combination of torque

reduction and wheels braking, to bring the trailer and the vehicle under control.

Post collision braking system – Intervenes in the event of an accident, automatically applying brakes to prevent secondary potential collisions.

4. Advanced Emergency Braking System (AEBS)

This system alerts the driver of a potential collision through a combination of visual and then audible warnings. Should the driver fail to react, autonomous emergency braking is triggered to help mitigate/avoid the impact by reducing the speed of the vehicle. AEBS provides additional assistance to optimise braking performance while a dynamic brake support

function boosts pressure to help further minimise stopping distances.

Lane support system**

Lane support system prevents unintentional departure from the lane, with the help of a forward-facing camera on the windscreen performing corrective steering interventions to prevent the vehicle from crossing painted boundary lines or even roadside edges. A tactile warning in the form of torque applied to the steering wheel, together with visual and audible warnings on the instrument panel display, to alert the driver they must stay within the lane limits.

Options

Model specific options	Option code*	Prime	Prime Electric
Safety			
Front side-impact and curtain airbags	NF04	£540	£540
Speed limiter (56mph) – Standard on 4000 (N2)	SB13	No-cost	No-cost

Fixed towing hook (monoblock)	AQ03	£500	

*Optional at extra cost excluding VAT.

Infotainment

Multimedia navigation system – Electric models

Features

- 10-inch colour touchscreen with wireless mirror screen
- Fully integrated TomTom® satellite navigation system
- AM/FM/DAB digital radio
- Bluetooth®
- Apple CarPlay/Android Auto™
- Voice control
- Natural voice recognition
- Customisable one-touch access

Media connections

- 2x USB connections (1x A type, 1x C type)
- Bluetooth® audio streaming

Mobile phone portal

- Bluetooth® connectivity
- Vehicle microphone
- Phone book access – Contacts/last calls/missed calls etc. are mirrored on the display and are easily navigated using the touchscreen (features dependent on mobile phone)

Additional features

- Flexible roof-mounted aerial
- Steering wheel mounted audio and phone controls

Driver information

- 7-inch digital instrument cluster
- 3D navigation map and route display
- Driver assistance information and warnings
- Power/regenerative charge meter
- 'State of charge'/drive mode displays
- Digital speedometer

Multimedia – Diesel models

Features

- 5-inch colour touchscreen
- AM/FM/DAB digital radio
- Voice control

Media connections

- USB connection
- Bluetooth® audio streaming

Mobile phone portal

- Bluetooth® connectivity
- Vehicle microphone
- Phone book access – Contacts/last calls/missed calls etc. are mirrored on the display and are easily navigated using the touchscreen (features dependent on mobile phone)

Additional features

- Flexible roof-mounted aerial
- Steering wheel mounted audio and phone controls

Driver information

- Driver information display – centrally located in instrument cluster including speedometer and rev counter
- 3.5-inch mono digital display
- Digital fuel and water gauges

Vauxhall Connect

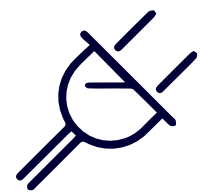

Safety

The more you know, the safer your journey – that's why our smart tech and connected services keep you constantly updated on what's going on inside and outside your vehicle.

Peace of mind

- Emergency call (SOS e-call)
- Breakdown call (b-call)

e-Remote control

Want seamless charging and added levels of comfort? Use e-Remote to schedule charging times, keep an eye on your range and even pre-set your vehicle's cabin temperature before you get in.

Convenience

- E-remote control (Electric only)**
- Remote check of battery level, programming and charge management
- Pre-conditioning of vehicle temperature

Live navigation plus†

With real-time directions and traffic information from the leading European GPS provider, TomTom®, every journey will be a breeze.

- TomTom® services
- Real time traffic news
- Parking prices and availability
- Weather forecast on your journey
- Natural voice control
- Fuel prices at petrol stations
- Search for charging stations
- Quick search for points of interest
- Road safety alerts

Maintenance

Connected services are here for you – even when things go wrong. Our Intelligent Telemaintenance service monitors the key functions of your vehicle – and notifies you as soon as something needs attention.

- Vehicle status and information**
- Maintenance alerts, fuel level, average fuel consumption and mileage

Vauxhall Connect* is the smart way to stay connected while on the road. Innovative technology systems and related services keep our drivers safe and provide an exciting, efficient yet safe trip.

Specifications* – Electric

Single-speed electronic drive selector

As the motor is an all-electric single-speed drive unit, there is no need for multiple gears. Instead, the driver selects from the facia-mounted buttons the following:

• **D:** Drive • **N:** Neutral • **R:** Reverse

Driving modes enable the driver to optimise the range in real conditions. Three drive modes are available:

Eco: for a smooth and economical drive

Normal: for a comfortable and balanced drive

Power: for a powerful and responsive drive

There are four E-Coasting modes for regenerative braking enabled by the paddles on the steering wheel:

E-Coasting 1: Free wheeling

E-Coasting 2: Low deceleration

E-Coasting 3: Medium deceleration

E-Coasting 4: High deceleration

Charging

The Movano Electric is fitted as standard with a dual on-board charger (OBC, single-phase 7kW and 11kW), which can meet all customer uses and charging solutions. Movano Electric is also equipped with a type 2 charging cable.

Braking

Single foot driving experience

The system not only utilises the energy when the brakes are being used, but also engages when the vehicle is coasting, recovering more energy and enabling single foot driving as the brakes automatically engage when the throttle pedal is released.

Please note, EV range assumes that vehicle has been pre-conditioned prior to journey. This function can be accessed either via MyVauxhall App or by using the infotainment system.

Drivetrain – Electric		
CO ₂ emissions	0g/km	
Maximum power	200kW (272PS)	
Maximum torque	410Nm (302lb. ft)	
Maximum speed	80mph	
Transmission	Automatic electric drive with fixed gear ratio	
Service interval	tba	
Battery		
Battery capacity	110kWh	
AC on-board charger speed (standard)	11kW	
WLTP Range (Combined)	up to 261 miles	
WLTP Range (City)	tba	
Energy consumption (Combined low/high)	tba	
Battery warranty	8 years/100,000 miles/70% capacity	
Charging (Supply)	Socket	Charge Time (0 – 100%)
AC current – Home wallbox or public charger (7kW)	Type 2	16h 40m
AC current – Public charger (11kW)	Type 2	11h 45m
DC current – Rapid charger (150kW)	CCS	55min (0 – 80%)

The Movano Electric is a battery electric vehicle requiring mains electricity for charging. Range data given has been determined according to WLTP test procedure methodology. The figures shown are intended for comparability purposes only and should only be compared to other cars tested to the same technical standard. The range you achieve under real world driving conditions will depend upon a number of factors, including but not limited to: the accessories fitted (pre and post registration); charging frequency; personal driving style; vehicle load and route characteristics; variations in weather; heating/air conditioning; pre-conditioning and battery condition. For more information, contact your local Vauxhall Retailer.

*Provisional data.

S/S = Start/Stop.

[#]Figures shown are for comparison purposes and should only be compared to the fuel consumption and CO₂ values of other vehicles tested to the same technical standard. The fuel consumption achieved, and CO₂ produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO₂ figures. The CO₂ figures display a range to reflect the highest value for the highest emitting version with all available options added, through to a minimum value to represent the lowest emitting version in standard specification.

Specifications

Transmissions

Six-speed manual gearbox

Diesel engines: 2.2 (140PS/180PS) Turbo D

Steering

- Hydraulic power-assisted rack and pinion system
- Energy absorbing steering column
- Turning circle kerb-to-kerb/wall-to-wall (m):
 - 12.6/12.8 (L2)
 - 14.2/14.4 (L3)
 - 14.2/14.4 (L4)

Brakes

- Front ventilated disc brakes:
 - 280mm (3500)
 - 300mm (3500 Heavy/4000/auto)
- Rear disc brakes:
 - 280mm (3500/Heavy)
 - 300mm (4000)
- Anti-lock Braking System (ABS)
- Emergency brake assist
- Electronic brakeforce distribution

Suspension and stability

- Front: Independent pseudo-MacPherson type with lower wishbone and 26mm anti-roll bar, double acting hydraulic shock absorbers and helical springs
- Rear: Rigid axle, anti-roll bar, double acting hydraulic (inclined telescopic) shock absorbers, longitudinal leaf springs (standard single leaf)
- Electronic Stability Programme-plus (ESP-plus) with traction control – Works in conjunction with the vehicle’s electronic braking and engine systems to keep the vehicle stable in many different situations. ESP monitors a variety of inputs to determine when the vehicle starts to lose traction, it can then immediately respond by varying the brake pressure between up to three wheels and adjust the engine output To help correct the loss of traction and improve stability

Fuel tank capacities

- 90 litres – Diesel
- 19 litres – AdBlue®

Glossary of terms

Plated weight

The maximum weight to which a vehicle or an axle may be loaded, determined either by the design of the components or by legislation. All commercial vehicles must carry a manufacturer's 'plate' showing the vehicle and axle gross 'plated weights'. It is an offence to drive a vehicle in a condition where any of these weights are exceeded.

Minimum Mass

Minimum Mass ('Mass in running order' on Certificate of Conformity and 'Mass in Service' on V5C form) is defined according to European Type Approval and include all fluids, tools and 90% fuel load. It is minimum mass for this variant and does not consider local specification/trim or deletable options (specific to Movano). Weights are also subject to manufacturing tolerances (EU Legislation allows 5% tolerance).

Gross Vehicle Weight (GVW)

The total permissible weight of a vehicle including payload and passengers, as shown on the manufacturer's plate.

Gross Combination Weight (GCW)

The maximum permissible weight of a vehicle, including payload and passengers, combined with the total weight of any trailer it is towing. The maximum GCW weight limit is quoted on the vehicle plate and must not be exceeded.

Payload

The total permissible weight that can be carried without exceeding the vehicle's plated weight. Payload do not include driver but do take into consideration specification/trim level:

Weights are also subject to manufacturing tolerances (EU Legislation allows 5% tolerance). Payload does not consider any additional options that a customer may order.

Roof loads

Roof load should not exceed 100kg including the weight of the roof rack/carrier

Maximum towing weight

The maximum weight of any trailer and its load which may be towed within the limit of the vehicle's plated Gross Combination Weight (GCW). It is based on the ability of the vehicle – at full GCW – to restart on a 12% gradient, which is approximately 1 in 8.3, at sea level. At altitudes above 1500 metres, the engine output may drop with a corresponding reduction in towing capability. It is the operator's responsibility to ensure that the trailer noseweight does not cause the rear axle plated weight of the towing vehicle to be exceeded.

Always fit Vauxhall towing attachments and accessories available from your Vauxhall Commercial Vehicle Retailer. They are designed specifically for Vauxhall models and carry a 12-month warranty.

Commercial Vehicle Categories

Differences between M1/N1 and M2/N2 (Vehicles with GVW above 3500kg)

Category M: Passenger carriers

Category M1: Vehicles designed and constructed for the carriage of passengers and comprising no more than eight seats in addition to the driver's seat.

Category M2: Vehicles designed and constructed for the carriage of passengers, comprising more than eight seats in addition to the driver's seat, and having a maximum mass not exceeding 5 tonnes.

Category N: Goods vehicles

Category N1: Vehicles designed and constructed for the carriage of goods and having a maximum mass not exceeding 3.5 tonnes.

Category N2: Vehicles designed and constructed for the carriage of goods and having a maximum mass exceeding 3.5 tonnes but not exceeding 12 tonnes.

Specific differences, all M2/N2 require the following:

Speed limiter: All M2/N2 vehicles are legally required to be speed limited. M2 to 62mph and N2 to 56mph.

Conversions

A new conversion portal has been introduced. This significantly improves the transparency and response of all communication with body-builders, and converters: converters-and-stellantis.com

This website contains complete technical guidelines necessary to convert Vauxhall commercial vehicles – Combo (eK9/K9); Vivaro (eKO/KO); Movano (eX250/X250).

- Conversion Guidelines
- 2D Drawings
- 3D CAD
- WLTP Range/Emission Calculator
- Technical Questions
- Conversion Approval including LONO

Any converter of Vauxhall product should create an account on this portal including those using IVA as approval process.

Further information

Vauxhall on-the-road recommended retail prices (RRP)

To eliminate uncertainty about hidden costs incurred when buying a new commercial vehicle, Vauxhall publishes on-the-road prices and these are shown in the pricing tables within this price guide. The prices shown are manufacturer's recommended retail prices (RRP) unless otherwise stated, exclusive of VAT (currently at a rate of 20% which may be payable). These prices include the recommended cost of number plates, delivery to a Vauxhall Retailer of £695.00 (£834.00 including VAT), 12 months' Government Vehicle Excise Duty* and the DVLA new vehicle first registration fee of £55.00.*

Please note: The RRP does not include fuel supplied by the Retailer, motor insurance or any other goods or services supplied by agreement between the Retailer and customer.

*Correct at time of publication.

Price protection

Order a new Vauxhall for build in the current model year (as confirmed by your Retailer) for delivery no more than three months in advance and the price you are quoted is the price you pay. This is irrespective of any subsequent price rises between placing your order and delivery of your new car, but you must take delivery as soon as the car is available.

Please note: Vauxhall Motors Limited is not liable for price adjustments caused by Government changes in the rate of VAT (currently 20%), Vehicle Excise Duty, DVLA new vehicle first registration fee or by any other applicable legislation or regulations.

Vehicle Excise Duty

The amount of Vehicle Excise Duty (road fund licence) payable on new commercial vehicles varies depending on gross vehicle weight (GVW) and European standard emissions compliance.

Customer Care Commitment

For added peace of mind, Vauxhall has an innovative Customer Care Commitment** that offers the following:

- Three-year vehicle warranty consisting of a one-year/unlimited mileage manufacturer's warranty and a second and third year manufacturer's warranty with a 100,000 miles limitation
- Vauxhall Assistance for 12 months from first registration
- Five years' body panel anti-perforation warranty

**Warranty is only on vehicles sourced from Vauxhall Motors Limited. Terms and conditions apply – please see your Vauxhall Retailer for details.

Vauxhall Assistance

Vauxhall Assistance is provided automatically with every new Vauxhall Commercial Vehicle for 12 months from first registration and covers everything from accidents, mechanical breakdown to flat tyres. For even more peace of mind, for fully electric models the cover is extended[†] to 3 years. With Vauxhall Assistance help is literally just a free^{††} phone call away, 24 hours a day, 365 days a year!

[†]Terms and conditions apply. Please click [here](#) for full terms and conditions. ^{††}Mobile phone users will be charged at their standard tariff.

Vauxhall Extended Warranty

For complete peace of mind Vauxhall offers an extended warranty that can be purchased on an annual basis following the expiry of the original new vehicle warranty. It covers most mechanical and electrical components. Terms and conditions apply, for further details please contact your local Vauxhall Retailer.

Vauxhall Service Plan

Vauxhall Retailers offer a great service for owners of all Vauxhall vehicles. Value for money, regular offers and free check-ups, combined with the peace of mind that comes from using Vauxhall-trained technicians and genuine parts, help keep your vehicle in peak condition at all times. Every Vauxhall Retailer supports our customer promise, see vauxhall.co.uk/discover/here-for-you.html

Protecting the environment

Our products are increasingly winning environmental awards, both through the use of more recycled materials and by becoming cleaner and more efficient. For information on Vauxhall's efforts to achieve an environmentally sustainable future, including information on Design for Recycling, take-back of End-of-Life Vehicles (ELVs), and the recycling of ELVs, see vauxhall.co.uk/recycling

In the event of an accident...

Vauxhall Accident Management helps keep you mobile following an accident. Benefits include vehicle recovery, Vauxhall-approved repairs and contacting your insurer. For more details, visit vauxhall.co.uk/AccidentManagement

Van Business Centres

Keeping your van on the road. We know how important your van is to you, that's why we're geared up to minimise your downtime.

Our nationwide Van Business Centres provide fast, convenient value for money servicing, repairs and MOTs.

- All work is carried out by Vauxhall trained technicians using only genuine parts
- No appointments are required for diagnosis and we offer a 'while you wait' service

We have all the expertise required and will spare no effort to get you back in business as soon as possible.

LEASYS

Leasys UK

Leasys is the proud Business Contract Hire partner of Vauxhall and consequently, can provide quick vehicle delivery to keep your business mobile.

Specialised in Medium to Long-Term Leasing options and Fleet Management solutions for businesses of all sizes, [Leasys](#) lead mobility by offering sustainable and innovative solutions designed around customers, for a best-in-class experience. Their team of experts can personally support you and provide dedicated consultation.

[Leasys](#) is equally owned by Stellantis and Crédit Agricole Consumer Finance and is a member of the British Vehicle Rental and Leasing Association (BVRLA).

For further information, please contact your local Vauxhall Retailer or visit leasys.com/uk
