DRIVE BOLD.

Three ADAMs, three engines, countless possibilities. ADAM is anything but heavy, so all our engines are light on their feet – and your pocket. The sportiest option is the 100PS 1.4i 16v. The most economical choice is the 1.2i 16v. You can get both of these with Start/Stop technology that saves more fuel by switching the engine off when you stop in traffic.

PERFORMANCE/FUEL ECONOMY/CO₂/VEHICLE EXCISE DUTY

The figures for fuel consumption and CO₂ emissions do not relate to a specific vehicle and are not part of an offer. They are provided only for the purpose of comparison between different vehicle variants. All information was accurate and up to date at the time of going to press (October 2013). The company reserves the right to alter engine specifications at any time, which may influence the content of the shown data. Please consult your Vauxhall retailer for the latest information. All figures quoted relate to the EU base model with standard equipment. Fuel consumption data and CO₂ emission data are determined according to regulation R (EC) No. 715/2007 (in the version respectively applicable), taking into consideration the vehicle weight in running order, as specified by the regulation. Additional equipment may lead to slightly higher results than the stated consumption and CO₂ figures. **Please note: Optional 18-inch wheels could lead to an increase in fuel consumption and emissions.** For further details, please refer to the ADAM Price and Specification Guide, available to download from www.vauxhalladam.co.uk

And if you like cutting down on emissions, consumption and costs, you'll be rewarded with a clearer conscience and zero road tax for the first year too. If you're a creature of the city then you'll also love City Mode, which lightens the steering for parking with ease. While, should a more difficult situation arise, the ever present electronic stability programme will be there to reduce the possibility of losing control. And your cool.

A DIFFERENT KIND OF DIFFERENT.

Ever driven a car where the night sky was on the inside of the roof? Or a chess board? Or cotton-wool clouds floating in a blue summer sky? Now's your chance! Believe it or not, ADAM lets you pick the décor over your head with what we call a printed or illuminated headliner.* You can redesign the dashboard too, with a choice of 16 different colours and textures for the facia panel décor inserts, some of which extend to the centre console and door panel inserts too. Just ask your retailer or log on to the ADAM configurator at www.vauxhall-adam.co.uk for details of all the standard and optional* combinations on offer.

HEADLINERS

- A. Stars – illuminated
- B. Go – printed
- C. Sky – printed
- D. Sky – printed and illuminated

LIGHT PACK

The Interior Light Pack* lets you experiment with the ambient lighting in your car. You can switch between eight different colours and, of course, when the colour of the cabin lighting changes so does the effect it has on the trim. For a better idea of how it works, make a date with your local Vauxhall retailer and see how customised car design has come of age with options where you didn't even know options could be.

*Optional at extra cost.
**Centre console and door panel inserts in Japan Black.

STYLISTS WANTED.

16 dashboard colours and 15 seat trims sound like a lot but a little ADAM magic actually gives you five times that number. How? By adding Interior Leather Packs* that change the colour of the steering wheel, handbrake and gear knob. You can also opt for floor mats to match or a range of rear-view mirror covers in graphic or coloured styles*.

EYE CANDY.

The optional Sight and Light Pack covers three clever features that take the strain off your eyes and a load off your mind: The electro-chromatic rear-view mirror, automatic lighting control and the rain sensor. The electro-chromatic mirror cuts down the glare from cars behind you at night by automatically adjusting the amount of light it reflects. The automatic lighting control turns your headlights on automatically in low light situations and off when light levels improve and the rain sensor detects rain and turns on your windscreen wipers automatically – so you don't have to!

VX_ADAM_19834

VX_ADAM_19393

WE'RE ON YOUR SIDE.

Advanced park assist comes with another clever safety option – Side blind spot detection. It's basically an intelligent door mirror that flashes a clear warning should another car potentially be in a blind spot. Side blind spot detection works up to 87mph (where permitted).

INNER SPACE.

When it comes to the question of storage, ADAM has all the right answers. With clever spaces, pockets and drawers to stash anything you want, keeping the inside of your car tidy and looking the way you intended.

Put frost back in its box with the ADAM Winter Pack. It heats the front seats or steering wheel or door mirrors – or all three. You control the whole system with simple switches on the dash.

LOCAL WARMING.

VX_ADAM_19835

PARK & RIDE.

If you like sitting back while other people do the work, you're going to love the advanced park assist option. First of all, it lets you know when you drive by a suitable parking space. Then it manoeuvres the car into the space at exactly the right angle. You can actually take your hands off the wheel and watch your car steer itself. You do have to work the pedals and gears but the system tells you how far forwards and backwards to go. The graphics appear on a clear and simple display, which makes them easy to see – and the whole system easy to use.

PARK & PLAY.

ADAM offers a whole stack of high tech options that make driving simpler, safer and more comfortable – plus they help free up your time. Like Flex-Fix® and advanced park assist. One helps you park your bike on the back bumper, the other helps you park your car without bumping the back.

SAFE & SOUND.

You're in safe hands with ADAM. Every version comes with ABS, Electronic Stability Programme-plus (ESP-plus) and six airbags as standard. And there's the option of an alarm system should your car attract the wrong kind of attention.

OUTER SPACE.

Slide your Flex-Fix® bike carrier out of the bumper to mount your bike on the back of the car. When you're done, simply slide it back in. When it's not in use you'd never know it was there. To mount two bikes at once, add the accessory Flex-Fix® extension.

ADAM GLAM illustrated features I'll be Black Roof Colour Pack, Twisted Brown Pack, Flex-Fix® and A Star is Brown brilliant paint, all optional at extra cost. Additional bike carrier extension is available as an accessory at extra cost. The Flex-Fix® option is not available in conjunction with the optional VXR Styling Pack or space-saver wheel and tyre.

**BRING
IT
ON.**

Every ADAM comes with the latest in-car infotainment systems such as digital radio and Bluetooth® connectivity as standard. You can even fit your ADAM with the latest technology; optional IntelliLink, a smart all-in-one infotainment system with a big, 7-inch colour display. IntelliLink not only looks great but is extra easy to use directly via the touch-screen or steering wheel controls whilst compatible iPhones can use 'Siri Eyes Free' voice activation. And if you really want to pump up the volume add the optional Infinity premium speaker system.

YOUR OS

IntelliLink audio system with 7-inch touch-screen.

Designed to work without a CD player, IntelliLink supports portable Bluetooth® and USB audio devices, so not only can you make calls while on the move but you can hook up your smartphones or tablets to access your own music, videos², slideshows², podcasts and more. The built-in smartphone link also works with popular apps including BringGo portable navigation system and internet radio apps Stitcher® and TuneIn.

SIRI EYES FREE THROUGH YOUR iPhone.

IntelliLink – Siri Eyes Free.

Play a song, make a call or send a text – with your eyes on the road and your hands on the steering wheel. Siri Eyes Free – the intelligent personal assistant is integrated in ADAM through your iPhone making your ride more fun and safe. Using a button on the ADAM steering wheel, iPhone⁵ owners can ask Siri to call people, play music listen to and compose text messages, dictate e-mails, hear new notifications, get directions, add reminders and much more. And with the ADAM FlexDock® cradle accessory you have your Apple device⁵ front and centre and can use Siri Eyes Free to voice control turn-by-turn navigation on Apple Maps and ask "Are we there yet?" Thanks Siri.

VX_ADAM_20561

YOUR APPS

IntelliLink – Stitcher® and TuneIn⁴.

Stitcher® automatically streams the latest episodes of your favourite podcasts and talk-radio, news, comedy, music and sports shows to your smartphone or tablet, and lets you 'stitch' them together to create your own customised shows. TuneIn lets you access any of over 70,000 online radio stations and browse by music genre or content. It'll also play on-demand podcasts, concerts and interviews.

VX_ADAM_19867

IntelliLink – BringGo.

BringGo is a mobile app that combines with the IntelliLink display to give you fully functional satellite navigation without spending big on a conventional sat nav system. You just download the BringGo app to your smartphone or tablet³, connect to the display via USB or Bluetooth®, and BringGo beams your maps and routes to the big screen. Of course, it'll guide you turn-by-turn to your destination just like a regular sat nav.

YOUR MUSIC

CD-based audio system with Bluetooth®.

The standard audio system features an MP3/WMA-compatible CD player, digital radio, AM/FM stereo radio, RDS with Traffic Programme and steering wheel mounted audio controls. Sound-wise there's 20 watts per channel output from five speakers combined with speed-dependent volume control. It also comes with Bluetooth®, USB and aux-in as standard too.

Sound this out⁶.

The Infinity badge guarantees top-notch audio reproduction. Immerse yourself in near perfect 7-channel sound, powered by a 7 x 45-watt amplifier and a boot-mounted subwoofer. The satellite speakers are mounted at different heights on the doors and pillars to ensure your music comes through loud and clear.

FlexDock⁷.

The intelligent accessory for accessing your smartphone in the car and keeping it safe, within easy reach and clearly visible on the dash. The FlexDock® mount lets you make or take calls and stream your media to the audio unit. It recharges the battery, too.

¹The majority of phones, MP3 players and tablets can be connected by either Bluetooth®, USB connection or aux-in. Please note you may need to change your connection method (i.e. from Bluetooth® to USB cable) if you want to access another function on your device. Certain operations with certain devices may require special leads. Certain iOS and Android devices are the only ones compatible with BringGo, TuneIn or Stitcher® apps. ²Video clips and slideshows will not display while the car is moving. ³BringGo is subject to a subscription fee and is available on certain devices only. Please consult your service provider or mobile phone manufacturer for more information on the accessibility and subscription fee associated with this service. ⁴You may incur additional costs from your operator for these services and as such we recommend that you check the data costs on your tariff. ⁵Siri is available in Beta only on iPhone 4S/5/5S, iPad (3rd/4th generations), iPad mini and iPod touch (4th generation) and requires Internet access. Cellular data charges may apply. Siri may not be available in all languages or in all areas, and features may vary by area. ⁶The Infinity speaker system is optional at extra cost, but is not available with the space-saver spare wheel/tyre, Flex-Fix® bike carrier or storage organiser options. ⁷Available as an accessory at extra cost for iPhone 3/3G/3GS/4/4S and certain other smartphones. Please consult your retailer for the latest compatibility information. iPhones are automatically connected through the cradle itself. Other smartphones utilise the USB connection on the FlexDock® baseplate (USB cable not supplied).
