

MOKKA

Range Highlights

Proud Sponsor of Home Nations Football

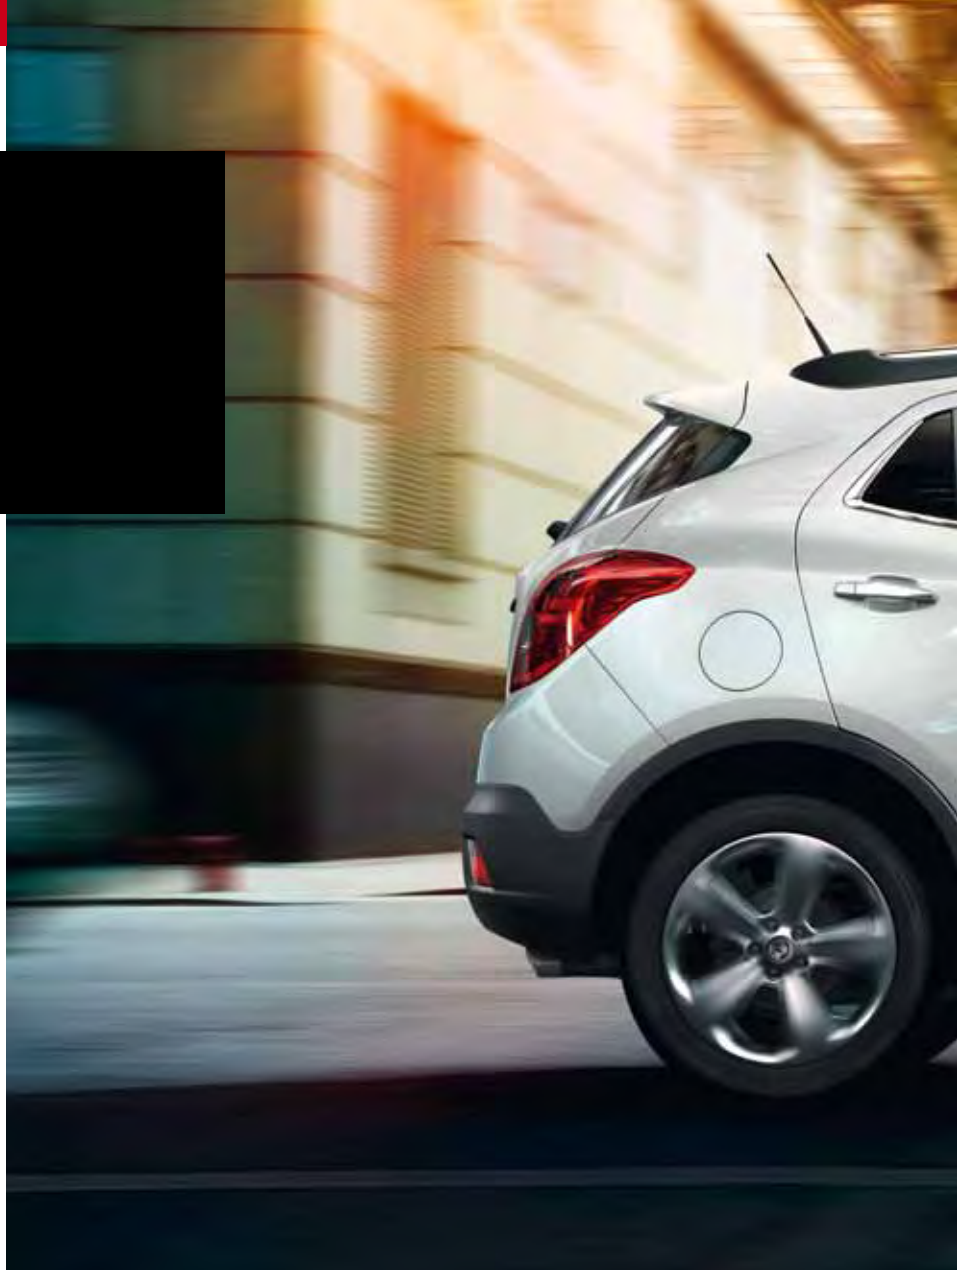

BOLD NOW COMES AS STANDARD

Like to think bigger? Then think Mokka. This innovative new model combines the road presence of an SUV, with the dynamic handling of a sports hatchback. And, its sleek, bold design is sure to turn heads from any angle. Then there's the interior. An eye-catching cabin filled with style and outstanding specification that puts cutting-edge design and technology right in your hands.

The vehicles illustrated in this brochure may not necessarily represent the correct final UK specification and not all the features described are available on every model.

AGILITY MEETS UTILITY

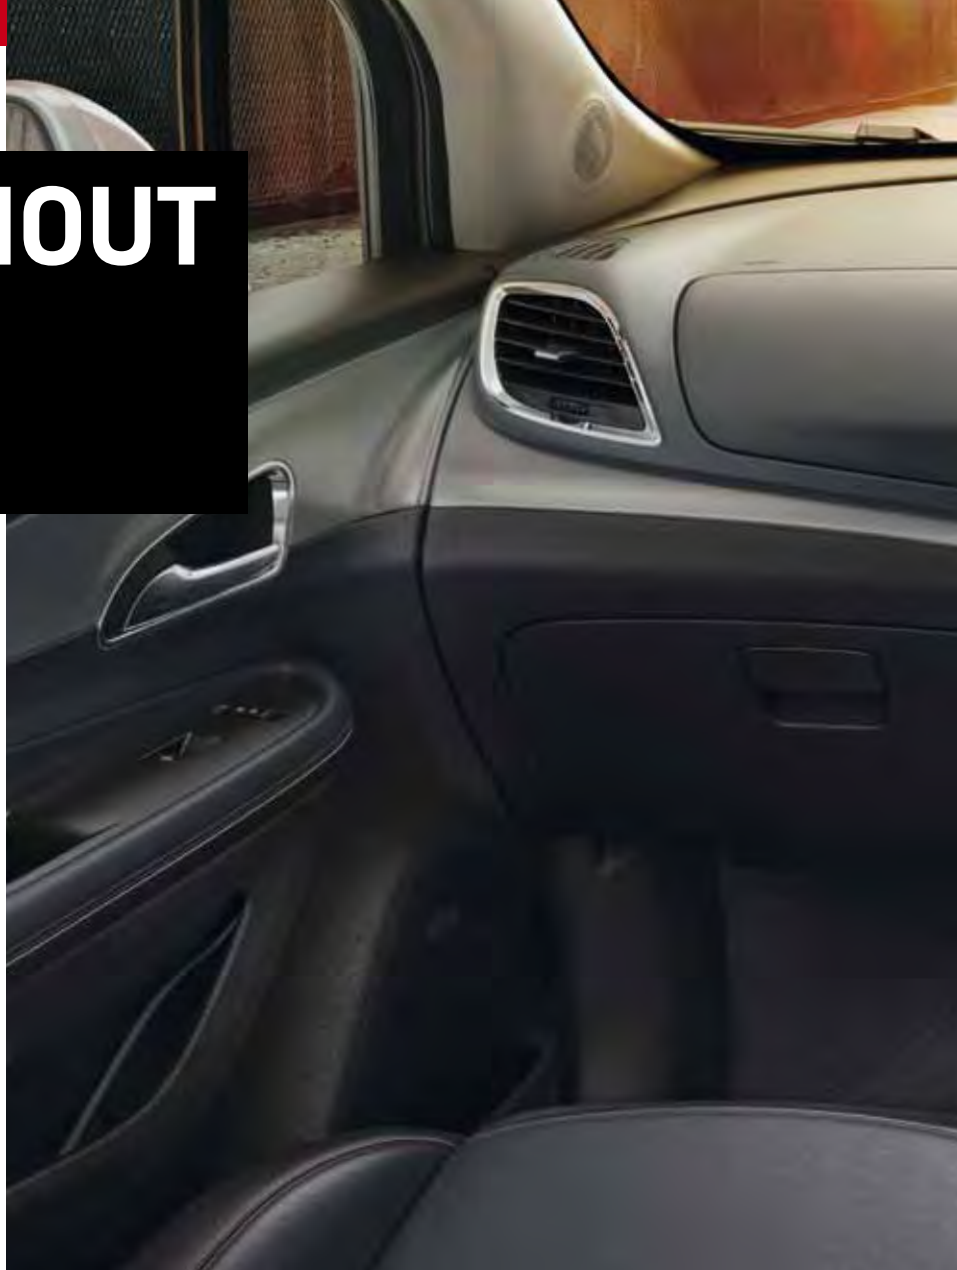

Experience a true SUV with a truly sensational drive. Compact enough to be nimble in city traffic the Mokka maintains precise handling whatever you do and wherever you go, even on the most demanding of roads – or off the beaten track. Its muscular and sporty design belies the light, agile chassis, which makes the fuel and emission figures refreshingly easy on the eye too. Practical, agile and incredibly convenient, the Mokka is streets ahead of a conventional SUV and is designed to bring a sense of adventure back into your everyday drive.

CAPABILITY WITHOUT COMPROMISE

The Mokka is a car that can handle anything your life throws at it. There are four distinctive models available to explore: S, Exclusiv, Tech Line and SE. All seat five friends or family with more than enough room to stretch your legs. Advanced ergonomically designed seats provide supreme comfort, while clever storage options keep the spacious interior neat and tidy. Plus you can stay in touch while on the move with state-of-the-art infotainment systems. And with a boot that stretches to 1372 litres with the rear seats folded, Mokka gives you a real sense of space.

➤ IDEAS WITH IMPACT

The Mokka comes with some clever little features that make a big difference to your life. From front and rear parking distance sensors to the integrated Thule roof carrier systems with attachments and a sophisticated Navi 600 satellite navigation system, you can tweak your Mokka to suit you.

1. Flex-Fix® bike carrier system. If you're into park-and-bike-ride, you'll be into Flex-Fix®. This optional, fully integrated carrier system slides in and out of the Mokka's rear bumper, so you can easily mount your bike on the back of the car. To open the tailgate, you just tilt it out of the way. Add the accessory Flex-Fix® extension to carry two more bikes.

2. Ergonomic sports front seats. The ideal choice for long-distance drivers. These seats* adjust to suit your posture by letting you fine tune the lumbar cushion and extending the seat cushion. Giving your upper body and legs more support where you need it most.

3. Rear View Camera and display. This optional system gives you a clear view of the area behind the car on the colour infotainment screen. Working in conjunction with the rear parking distance sensors, you'll quickly realise just how easy it becomes to reverse the car safely. Available in conjunction with Navi 600 satellite navigation system.

*Standard on SE models.

4. Winter Pack and Electronic Climate Control (ECC).

Heated front seats and even a heated steering wheel. Order yourself the optional Winter Pack* and stay warm no matter how the temperature dips outside. Exclusiv, Tech Line and SE models also feature ECC as standard, a bonus whatever the weather. When the going gets hotter the dual-zone settings mean you can set a different temperature for each side of the car. How cool is that?

➤ THE INTELLIGENCE TO GO FAR

From a steep off-road incline to a fast commute in a cloudburst at dusk. Packed with high-end technology like Descent Control System and the availability of intelligent four-wheel drive, the Mokka can comfortably handle whatever comes its way.

A lesson in control. Every Mokka features Electronic Stability Programme (ESP®) with Traction Control (TC) together with Descent Control System (DCS) and Hill Start Assist (HSA). Take it off-road and you can use DCS to safely control your speed on extreme downhill gradients even without having to brake. HSA will stop you rolling back unintentionally on steep hills, by automatically releasing the brake at just the right moment when pulling away on a gradient.

More traction for more action. Choose a Mokka with the intelligent four-wheel drive system and you can look forward to increased driving stability and improved handling in the toughest of conditions. The 4X4 system uses sensors to monitor a range of conditions including steering angle and the relative speed of the wheels. A sophisticated torque transfer device then automatically distributes drive between the front and rear wheels for optimum traction and superior safety in the prevailing road conditions.

THE POWER TO PLEASE

The Mokka boasts a lively range of engines with characteristics to suit your life. Choose from multi-valve petrol or turbocharged diesel models complete with 5- or 6-speed manual gearbox and Start/Stop as standard. And, the Mokka is the only SUV in its class to combine the responsiveness and low fuel consumption of a turbo diesel with the comfort of an automatic transmission and the convenience of front-wheel drive.

Grip on demand. The intelligent all-wheel drive technology automatically distributes drive between the front and rear wheels, for improved traction and handling in challenging conditions.

Start/Stop. Vauxhall's innovative system switches the engine off when you stop at the lights or in traffic, then restarts it automatically once the clutch is depressed; saving you fuel and reducing emissions.

So, if performance, responsiveness, low emissions and cost are high on your agenda, there's an engine that'll put a big grin on your face. All supported by the Vauxhall 100,000 mile Lifetime Warranty too.*

* Vauxhall Lifetime Warranty covers lifetime ownership of first car owner. 100,000 mile limit, annual check required. The warranty excludes wear and tear and serviceable items and the vehicle must be serviced in accordance with the manufacturer's servicing schedule to continue the lifetime warranty. Terms and conditions apply. Offer available to all Vauxhall passenger cars (this offer does not apply to car-derived vans) from 1st August 2010.

➤ SEE FURTHER. DRIVE SAFER

The Mokka brings headlights out of the dark ages. It's the first car in its category to offer adaptive bi-xenon headlights, in the shape of the Adaptive Forward Lighting (AFL) system. AFL improves visibility at night by automatically adjusting the direction and strength of your headlights to suit different speeds, traffic situations and even the weather conditions. The innovative Front Camera System option is also available as a driver aid.

Front Camera System.

Forward Collision Alert (FCA). FCA uses a camera to monitor the distance of a vehicle in front and alert the driver of potential collisions. At speeds above walking pace, it triggers visual and audible warnings if you approach slower-moving vehicles too fast. They can be adjusted at three different distance settings.

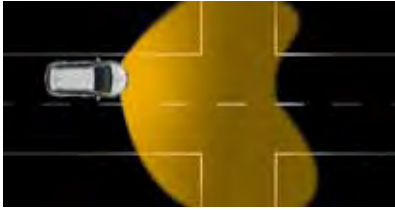

Traffic Sign Recognition (TSR). Utilising the Front Camera System, this clever feature makes sure you're constantly made aware of speed limits, even when temporary signs are put up. TSR continually monitors road signs, and gives you a warning if you unintentionally stray over the limit. It can even read and display motorway electronic signs related to speed limits like rain or snow warnings.

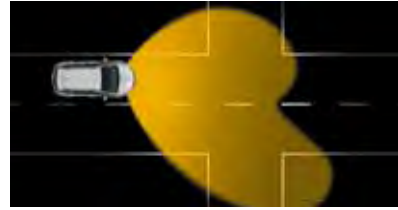

Lane Departure Warning (LDW). LDW uses the front camera system to recognise lane marking lines, and emits an audible warning if your vehicle leaves its lane unintentionally (i.e. without you signalling), preventing potential accidents and reminding you of inattention or tiredness. The LDW system can be deactivated via a facia switch.

Advanced Adaptive Forward Lighting.

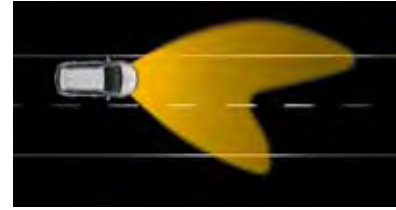

Pedestrian area light (up to 20mph).

Wider spread of light (an extra eight degrees left and right) illuminates potential hazards.

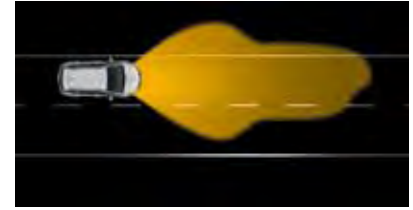

Town light (20-35mph).

Wider and lower spread of light. Activated by vehicle speed together with street lighting.

Country road light (35-70mph).

Wider spread and brighter light than normal low beam. 70 metre range without dazzle.

Motorway light (over 70mph).

140 metre range, higher and brighter than normal low beam, without dazzle.

Adverse weather light (up to 45mph).

Wiper or rain sensor activated for better vision in bad weather conditions.

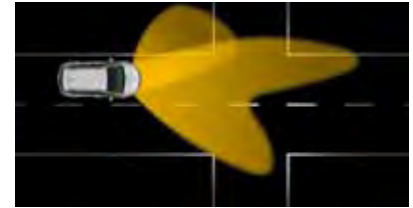

High beam with assist (over 25mph).

Automatically switches from high to low beam as it detects oncoming or preceding vehicles.

Dynamic curve light (any speed).

Activated by steering angle and speed, the headlights swivel up to 15 degrees into the curve.

Static cornering light (up to 25mph, also when reversing).

Throws light 90 degrees left or right for enhanced lateral vision.

S / EXCLUSIV / TECH LINE

S

Standard features include:

- Switchable Electronic Stability Programme
- Traction Control
- Descent Control System
- Hill Start Assist
- Anti-lock Braking System
- Driver's and front passenger's airbags
- Front seat side-impact airbags
- Full-size curtain airbags
- Air conditioning
- Steering column adjustable for reach and rake
- Silver-effect roof rails
- Electrically adjustable/heated door mirrors
- Electrically operated front windows
- CD/MP3 CD player/aux-in socket (CD 400)
- DMB digital radio
- Steering wheel mounted audio controls
- Multi-function trip computer
- Cruise control
- 60/40 split-folding rear seat back
- 16-inch wheels with 205/70 R 16 tyres
- Alloy-effect protective front skid plate
- Side-protection mouldings
- Remote control alarm system
- Remote control central locking
- Daytime running lights

Vauxhall Lifetime Warranty

We're so confident in Vauxhall quality and reliability that we are now able to offer a lifetime warranty. Available to the first owner of all new Vauxhall passenger cars, it's valid for the lifetime of the vehicle up to a maximum of 100,000 miles[†]. In addition, our warranty also includes Vauxhall Assistance for 12 months from first registration and six years body panel anti-perforation warranty. Full details of Vauxhall's warranties including terms, conditions and exclusions can be obtained through any authorised Vauxhall retailer or go to: www.vauxhall.co.uk/warranty

LIFETIME
WARRANTY 100,000 MILE

When you have finished with this brochure please recycle it

*The free 3 Day Test Drive programme is open to Company Car Drivers and excludes fuel and lubricants, congestion charges, parking and speeding fines and the £250 insurance excess (if applicable). It features a wide selection of models from the Vauxhall range (excluding Ampera, all VXR models and Commercial Vehicles and subject to availability). Drivers must be aged 25 years or over, have held a full driving licence for at least a year and hold a major credit card. You will need to have your driving licence (and proof of identity (i.e. passport) where the driving licence is not a photocard licence) when your car is delivered. While every effort will be made to ensure that at least 3 days are provided for the test drive, this cannot always be guaranteed due to delivery and collection dates and timings. Available for UK Mainland only. Terms and conditions apply. **Telephone lines open Monday-Friday 9.00am to 5.00pm excluding Bank Holidays. Calls may be recorded or monitored for quality and/or training purposes.

†Vauxhall Lifetime Warranty covers lifetime ownership of first car owner, 100,000 mile limit, annual check required. The warranty excludes wear and tear and serviceable items and the vehicle must be serviced in accordance with the manufacturer's servicing schedule to continue the lifetime warranty. Terms and conditions apply. Offer available to all Vauxhall passenger cars (this offer does not apply to car-derived vans) from 1st August 2010.
