## BENEFIT IN KIND COMPANY CAR TAXATION†

The car benefit charge will be the car's list price (including VAT, options and accessories fitted, delivery to retailer and number plates, but excluding Vehicle Excise Duty and new vehicle first registration fee) multiplied by the percentage charge for the CO<sub>2</sub> emissions band in which the car falls (see table opposite). Multiply this figure by your personal income tax rate (20% for Basic Rate, 40% for Higher Rate) to calculate your annual benefit in kind tax liability.

### Example:

**ADAM JAM 1.2i ecoFLEX Start/Stop**  
(CO<sub>2</sub> emissions 115g/km)

<b>On-the-road RRP</b>	£11750.00
Deduct: Vehicle Excise Duty	(£0.00)
New vehicle first registration fee	(£55.00)
<b>Effective list price</b>	£11695.00
Add: Optional two-coat metallic paint	£545.00
<b>List price for tax purposes (P11D value)</b>	£12240.00

<b>Car benefit charge</b>	
2014-15 tax year (16%)	£1958.00
<b>Benefit in kind tax liability (2014-15 tax year)</b>	
Basic Rate (20%) tax payer	£391.00
Higher Rate (40%) tax payer	£783.00

### DIGITAL RADIO

Now widely available in the UK, digital radio broadcasts offer the user a variety of advantages over traditional FM, starting with the digital quality sound which is immune to any hiss or crackle. You'll often find a broader range of stations on offer too, many of which are not available on FM, and listening to them couldn't be easier – you simply select the station, by name, from the displayed list, thus removing the need to retune or look for stations when travelling around. Some stations will even display the artists' names and song titles on the car's graphic display, while they're played.

### INTELLILINK

IntelliLink is Vauxhall's next-generation in-car infotainment system. It features a 7-inch colour touch-screen that enables access to, and operation of, a wide range of functions including music, video, phone, navigation and internet services. The system isn't equipped with a CD or DVD player. Instead, it's designed to support the latest media sources including Bluetooth® and USB devices, together with smartphones and their applications. All of these features are accessed through the touch-screen's Home menu.

Since many of these features are accessed via smartphone, the IntelliLink unit is designed to allow application updates as and when they become available, thus enabling it to make use of the latest smartphone developments as they happen. Music can be played either through the radio or from personal music players via USB connection, aux-in or Bluetooth® audio streaming. When played via USB, IntelliLink's built-in Gracenote® link provides song information and album artwork. Films and slide shows can also be viewed via the USB connection, but this facility is disabled when the car is moving.

IntelliLink is able to pair with up to four Bluetooth® phones simultaneously, with each phone's address book downloaded to the audio unit so that the car effectively becomes the phone. Phone priority can then be set through the touch-screen display. The smartphone link provides access to approved applications\* such as Stitcher™, BringGo navigation and TuneIn Radio. Together, these give access to satellite navigation and a wide range of internet radio stations.

\*Access to specific applications depends on the type of phone.

## START/STOP TECHNOLOGY

ADAM's Start/Stop system offers real benefits by improving fuel economy and reducing CO<sub>2</sub> emissions, particularly in town. It does this by automatically stopping the engine when you come to a standstill, and then restarting as you prepare to move off.

Before automatically stopping the engine a number of system checks are carried out to ensure that it is both safe and practical to do so. To ensure safety, the driver must depress the clutch pedal, shift in to neutral, and then release the clutch pedal.

System checks carried out before Auto Stop activates include:

- Start/Stop system is not manually deactivated via the facia button
- Sufficient brake vacuum is available to prevent the car rolling down an incline
- Battery is in good condition and charged
- Outside air temperature and engine temperature are above specified minima
- Electronic climate control (where fitted) is not in maximum heating or maximum cooling mode

If all of these conditions are satisfied then the vehicle will Auto Stop.

When you are ready to pull away from standstill, Auto Restart is activated by depressing the clutch pedal.

Whilst at a standstill the vehicle is continually monitored. If necessary, the engine will automatically be restarted. Conditions that would initiate an Auto Restart include:

- Low battery level
- Cabin temperature is too high
- Driver's seatbelt unfastened or driver's door opened
- Bonnet is released or opened

## TRANSMISSION

### Five-speed manual gearbox:

Standard on all models (except 1.0i 115PS Direct Injection Turbo).

### Six-speed manual gearbox:

Standard on 1.0i 115PS Direct Injection Turbo models only.

## Five-speed Easytronic transmission:

Available at extra cost on 1.4i 87PS models only. Easytronic transmission is a five-speed manual gearbox with a fully automatic mode. In manual mode you simply push the lever forward or back to shift gears up or down sequentially. The facia display tells you what gear you're in – 1 to 5, N for Neutral or A for Auto. Switch to fully automatic mode and it has many of the features of a regular automatic including a kickdown function. There's no clutch pedal so you can drive it on an automatic-only driving licence.

## STEERING

- Speed-sensitive power-assisted steering

## SUSPENSION

**Front:** Independent. MacPherson struts with gas-pressure dampers and coil springs. Anti-roll bar.

**Rear:** Compound crank with coil springs and gas-pressure dampers.

# ADAM ADDITIONAL INFORMATION

## ON-THE-ROAD PRICES

To eliminate uncertainty about hidden costs when buying a new car, Vauxhall publishes on-the-road recommended retail prices (RRP) and these are shown in the pricing tables within this price guide. These prices include the recommended cost of number plates and delivery to a Vauxhall retailer of £700.00 (including £116.67 VAT), 12 months' Government Vehicle Excise Duty (see opposite for details) and the DVLA new vehicle first registration fee of £55.00\*.

Please note: The on-the-road recommended retail price (RRP) does not include fuel supplied by the retailer, motor insurance or any other goods or services supplied by agreement between the retailer and the customer.

## PRICE PROTECTION

Order a new Vauxhall for build in the current model year (as confirmed by your retailer) for delivery no more than three months in advance and the price you are quoted is the price you pay. This is irrespective of any subsequent price rises between placing your order and delivery of your new car, but you must take delivery as soon as the car is available. General Motors UK Limited is not liable for price adjustments caused by Government changes in the rate of VAT (currently 20%), Vehicle Excise Duty, DVLA new vehicle first registration fee or by any other applicable legislation or regulations.

## VEHICLE EXCISE DUTY

The amount of Vehicle Excise Duty (road fund licence) payable on new cars varies depending on the level of carbon dioxide (CO<sub>2</sub>) emissions produced by the vehicle. CO<sub>2</sub> emissions are measured in grammes (g) per kilometre (km) travelled and divided into 13 charging bands shown in the table below.

From 1 April 2010 the Government introduced a new 'first year rate' of Vehicle Excise Duty payable on all new cars. In subsequent years the amount of Vehicle Excise Duty payable will revert to the standard rate.

### Vehicle Excise Duty\*

	CO <sub>2</sub> emissions (g/km)	First year rate	Standard rate
<b>Band A</b>	up to 100	£0.00	£0.00
