Multiply this figure by your personal income tax rate (20% for Basic Rate, 40% for Higher Rate) to calculate your annual benefit in kind tax liability.

### SATELLITE NAVIGATION

The optional Navi 650/950 satellite navigation systems offer dynamic route guidance via RDS-TMC (Traffic Message Channel) with directions given audibly and via the 7-inch colour monitor. TMC is a specific application of RDS used for broadcasting real-time traffic information. It alerts the driver to a problem on the planned route and calculates an alternative route to avoid the incident.

In addition to route planning criteria such as 'shortest distance' or 'avoiding toll roads', you can now select an energy-optimised 'green route'. Here you can specify parameters such as if you are towing a caravan or have a roof box fitted. The system will use this information, in conjunction with known factors including your vehicle's weight and engine type, to calculate the most fuel-efficient route.

The Navi 650 system covers all major link roads and streets in towns and cities across mainland Britain and Ireland, plus trunk and main roads for Western Europe. Additional country-specific maps with street level detail are available to download. Navi 950 IntelliLink covers street level mapping across Europe. The CD player plays regular audio CDs and MP3 tracks recorded to CD.

### USB CONNECTION

A USB connection is fitted in conjunction with the optional Navi 650 and 950 satellite navigation systems. It provides iPod control and read-out of iPod functions through the audio system display and charges the iPod whilst connected.

### DMB DIGITAL MEDIA BROADCAST

Standard on Tech Line and Tech Line GT and optional on most other models. Digital media broadcast (DMB) offers the user a variety of advantages over traditional FM, starting with improved sound quality. You'll often find a broader range of stations, many of which are not available on FM – you simply select the station, by name, from the displayed list. Some stations will even display the artists' names and song titles on the car's graphic display, while they're played.

### INTELLILINK

The Navi 950 audio system includes the latest IntelliLink technology, designed to support portable Bluetooth® and USB audio devices, so you can hook up your smartphones or tablets to make calls and access your own music, slideshows, podcasts and more.

### BLUETOOTH® MOBILE PHONE SYSTEM WITH VOICE ACTIVATION

Vauxhall's optional factory-fit dual-band Bluetooth® system has been considerably enhanced, (standard on Energy, Limited Edition, Tech Line and Tech Line GT). Now fully integrated into the audio and communication system, it also features voice control for certain functions.

All the required information is displayed on the graphic information display when a mobile phone is in use, while the menus are easily navigated by either the steering wheel audio controls or the multi-function button on the radio.

### Six-speed automatic transmission

#### with ActiveSelect® function

A six-speed automatic transmission is optional on 1.6i 16v VVT (115PS) and 2.0CDTi 16v (165PS) models. On the road, a wide selection of shift patterns is adapted to the style and habits of the driver, anticipating when maximum acceleration or maximum efficiency is required. The electronic control will also adapt to the prevailing road conditions, reducing gear shifting when climbing or descending and using engine braking assistance during down changes.

The ActiveSelect® manual mode allows the gear lever to be used like a sequential manual gearbox – you simply push the lever forward or back to change up or down the gears. The driver also benefits from a 'neutral' gear disengagement at idle, which reduces vibration and contributes to improved fuel consumption.

Gross vehicle weight is the total permissible weight of the vehicle including passengers and their luggage. The maximum roof rack loading should not exceed 75kg on hatchback models and 100kg on Sports Tourer models. The maximum towing weights are based on the ability of the car, with two occupants of 75kg each, to restart on a 12% gradient, which is approximately 1 in 8.3, at sea level. At altitudes above 1500 metres, the engine output may drop with a corresponding reduction in towing capability. Any extra weight, such as luggage or additional passengers, should be deducted from the maximum towing weight. With a trailer fully loaded, maximum noseweight should not exceed 75kg. Always fit Vauxhall towing attachments and accessories available from your Vauxhall retailer. They are designed specifically for Vauxhall models and carry a 12-month guarantee.

# ASTRA ADDITIONAL INFORMATION

## ON-THE-ROAD PRICES

To eliminate uncertainty about hidden costs when buying a new car, Vauxhall publishes on-the-road recommended retail prices (RRP) and these are shown in the pricing tables within this price guide. These prices include the recommended cost of number plates and delivery to a Vauxhall retailer of £700.00 (including £116.67 VAT), 12 months' Government Vehicle Excise Duty (see opposite for details) and the DVLA new vehicle first registration fee of £55.00\*.

Please note: The on-the-road recommended retail price (RRP) does not include fuel supplied by the retailer, motor insurance or any other goods or services supplied by agreement between the retailer and the customer.

## PRICE PROTECTION

Order a new Vauxhall for build in the current model year (as confirmed by your retailer) for delivery no more than three months in advance and the price you are quoted is the price you pay. This is irrespective of any subsequent price rises between placing your order and delivery of your new car, but you must take delivery as soon as the car is available. General Motors UK Limited is not liable for price adjustments caused by Government changes in the rate of VAT (currently 20%), Vehicle Excise Duty, DVLA new vehicle first registration fee or by any other applicable legislation or regulations.

## VEHICLE EXCISE DUTY

The amount of Vehicle Excise Duty (road fund licence) payable on new cars varies depending on the level of carbon dioxide (CO<sub>2</sub>) emissions produced by the vehicle. CO<sub>2</sub> emissions are measured in grammes (g) per kilometre (km) travelled and divided into 13 charging bands shown in the table below.

From 1 April 2010 the Government introduced a new 'first year rate' of Vehicle Excise Duty payable on all new cars. In subsequent years the amount of Vehicle Excise Duty payable will revert to the standard rate.

### Vehicle Excise Duty\*

	CO <sub>2</sub> emissions	First year rate	Standard rate
<b>Band A</b>	up to 100g/km	£0.00	£0.00
<b>Band B</b>	101-110g/km	£0.00	£20.00
<b>Band C</b>	111-120g/km	£0.00	£30.00
<b>Band D</b>	121-130g/km	£0.00	£105.00
<b>Band E</b>	131-140g/km	£125.00	£125.00
<b>Band F</b>	141-150g/km	£140.00	£140.00
<b>Band G</b>	151-165g/km	£175.00	£175.00
<b>Band H</b>	166-175g/km	£285.00	£200.00
<b>Band I</b>	176-185g/km	£335.00	£220.00
