

NEW ASTRA HATCHBACK & SPORTS TOURER

2013 Models Edition 2

Proud Sponsor of Home Nations Football

WELCOME TO A LIFETIME OF FORWARD THINKING

1903 – Forward thinking has been in our nature from the very start. The 6HP, our first ever car, had two forward gears. And no reverse.

1922 – The Silver Arrow OE 30-98 was capable of speeds of over 100mph, this model was built for shipping magnate Sir Leonard Ropner to race at Brooklands.

1937 – The Vauxhall 'H'-type, the first British car to have integral construction.

1957 – The PA Cresta introduced Americana styling to the UK.

1984 – The MkII Astra introduced class-leading aerodynamic styling that still looks good today. The Formula Vauxhall Lotus ran a modified version of the Astra GTE's 2.0i 16v engine.

1971 – The formation of Dealer Team Vauxhall (DTV). The track car was the precursor to our enormous success in touring car racing.

1999 – The Zafira introduced the revolutionary Flex7® seating system inventing the seven-seat compact MPV.

2012 – Ampera. The first ever Extended-Range Electric Vehicle (E-REV) that redefined electric vehicle innovation leading to it being voted European Car Of The Year 2012.

1990 – The Calibra was the world's most aerodynamic production car.

Scan this QR code with your smart phone for more information on the last 110 years of Vauxhall innovation. Don't forget to download a QR reader from your app store first.

1989 – The Lotus Carlton was the world's fastest production four-door saloon.

The world was a very different place in 1903 when Vauxhall made its first car. We steered with tillers, not wheels. Six horsepower was considered pretty nippy. And King Edward's face was still on the stamps. But for us, one important thing hasn't changed: we started out with a philosophy of Forward Thinking and, 110 years later, it still motivates everything we do. Who knows what innovations the next 110 years will bring?

The Vauxhall Lifetime Warranty. There's one thing every owner of a new Vauxhall can rely on. We're so confident in Vauxhall quality and reliability that we are now able to offer a lifetime warranty. It's available to the first owner of all our new Vauxhall passenger cars and valid for the lifetime of the vehicle up to a maximum of 100,000 miles. So you've got year after year of carefree driving to look forward to...

Please see back cover for full details of the Vauxhall Lifetime 100,000 mile warranty.

INNOVATION THAT MAKES YOU LOOK TWICE

Introducing the New Astra line-up: quite simply, the best-looking Astra we've ever built. It's also the best equipped. Whether Hatchback or Sports Tourer, your New Astra is simply full of innovations. Better still, it brings class-leading technology to the Astra driver, including a sophisticated new BiTurbo engine* that totally eliminates turbo lag. Its performance is as exciting as its looks. In short, today's Vauxhall Astra models have never turned more heads. Whichever way you look at them.

This brochure covers New Astra Expression, ES, Exclusiv, Energy, Tech Line, SRi, BiTurbo, SE and Elite models only. Some of the models shown include options and accessories available at extra cost. And not all of the features described are available on every model. We may also offer alternative New Astra models such as Special Editions. So for all current model or equipment details visit the Vauxhall website: www.vauxhall.co.uk

*Anticipated availability Summer 2013.

DESIGNED TO MOVE YOU

The New Astra Hatchback is one of the most striking models around, thanks to a dynamic new design that makes a dramatic style statement. What's more, the Astra name stands for forward-thinking technology – with a long list of innovations to prove it. From advanced driver aids like the Adaptive Forward Lighting system to sophisticated safety features including Front Camera System and Advanced Park Assist, New Astra showcases the kind of features that help the true market leaders stand out from the crowd.

Company car drivers can experience New Astra for themselves via our free 3 Day Test Drive programme. Please see back cover for more details.

www.vauxhall3dtd.co.uk

YOUR TURN TO TURN HEADS

From top to tailgate, the New Astra Sports Tourer has the verve to go with its unbridled versatility. Its powerful body sculpting lays down a clear marker for the class, while ahead of that distinctively curved rear lies a hugely flexible loadspace with up to 1550 litres* available. Wherever you're headed, whatever you have planned, the Sports Tourer has it covered, with practical innovations from the electrically operated pushbutton Flex Fold rear-seat mechanism to FlexRide customisable chassis settings. Capacious, capable and above all brilliant to drive, here's one model that really does put the Sports in Tourer.

*Rear seat down cushion removed (to roof).

PERFORMANCE TO THE POWER OF TWO

More than just a trim level, the brilliant, British-built, BiTurbo Hatchback and Sports Tourer models* match a sensational new 2.0 BiTurbo CDTi diesel engine with exclusive styling that comes straight from the pages of a wish fulfilment catalogue. First up there's the engine: generating 195PS and a hefty 400Nm of torque, it boasts fuel-saving Start/Stop technology and a fully sequential twin turbo system that delivers smooth, progressive acceleration at any speed, effectively eliminating turbo lag (the Sports Tourer variant is, indeed, the most powerful model in its class). Then there's the visual pay-off: a specially lowered sports chassis and awesome 18-inch alloys that leave the BiTurbo looking poised and ready for action. Unique front bumper with body-coloured upper grille bar and twin exhausts. And a race-inspired interior that boasts Jet Black 'Track' trim, combined with red sports seat bolsters and alloy-effect sports pedals among its sporty touches.

*Anticipated availability Summer 2013.

Astra BiTurbo

DRIVE YOUR EMOTIONS

Bold. Pure. Iconic. Astra GTC puts passion high on the agenda and is a suitably eye-catching addition to the New Astra line-up. Its stunning, coupé-like profile and distinctive, blade-inspired lines speak volumes about Vauxhall's design philosophy. With dramatic styling cues. Striking 18-inch alloy wheels. And a poised, muscular stance. Set off by signature lighting. In short: a clear declaration of sporting intent. And presence to die for. We've only given you a mere taste of what to expect here. For more detailed information ask your retailer for a copy of the Astra GTC brochure or log on to www.astragtc.co.uk

QUALITY THAT SURROUNDS YOU

Whichever body style you select, New Astra's generously proportioned interior sets the standard for its class. Driver and passengers are cosseted in a light, meticulously thought-out cabin that was conceived with just one priority in mind: journey-enhancing comfort. Premium materials combine with intelligent fascia design to maintain the air of quality.

Drivers who cover long distances will be especially pleased to note the availability of an ergonomically designed, AGR-accredited sports seat* – with adjustable front cushion for support where it matters and powered lumbar adjustment for individually tailored comfort. Optional Bluetooth® connectivity increases the feeling of being in control, adding to the overall sense of well-being.

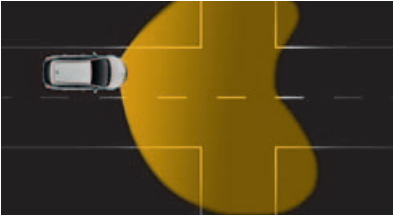

*Aktion Gesunder Rücken e.V (AGR) is an independent panel of ergonomics experts and doctors based in Germany.

➤ HEADLIGHTS WITH FORESIGHT

Vauxhall's intelligent Adaptive Forward Lighting (AFL+) technology is an invaluable optional addition to your New Astra, especially if you do a lot of driving at night. The headlights change their pattern to suit the location and the weather. Sensing where you need the light most, they help you see around corners and even dip automatically when something is coming the other way. You can also adjust the system for European driving.

LED Daytime Running Lights. Part of the optional Premium Forward Lighting Pack, the intelligent AFL+ headlight system comes with energy-efficient LEDs that make your car more visible to other road users. **High Beam with Assist (HBA).** HBA is also part of the Premium Forward Lighting Pack. It makes driving at night safer and easier by automatically dipping your headlights when it detects other vehicles ahead. It switches the lights back to high beam when the road is clear.

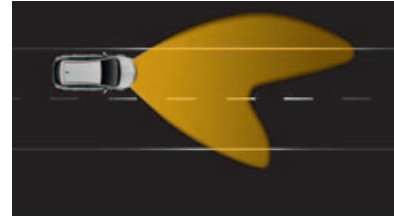

Pedestrian area light (up to 20mph).

Wider spread of light (an extra eight degrees left and right) illuminates potential hazards.

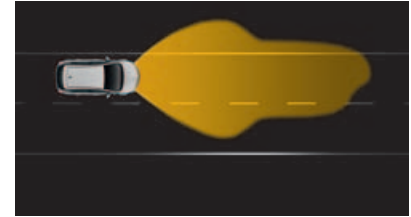

Town light (20–35mph).

Wider and lower spread of light. Activated by vehicle speed together with street lighting.

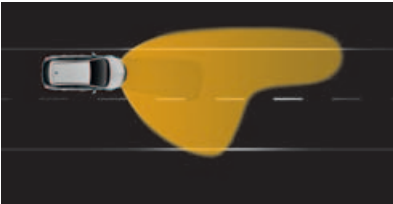

Country road light (35–70mph).

Wider spread and brighter light than normal low beam. 70 metre range without dazzle.

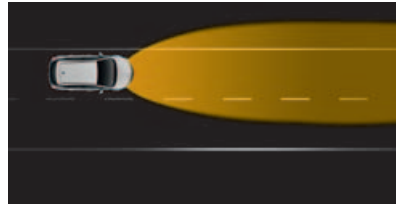

Motorway light (over 60mph).

140 metre range, higher and brighter than normal low beam, without dazzle.

Adverse weather light (up to 45mph).

Wiper or rain sensor activated for better vision in bad weather conditions.

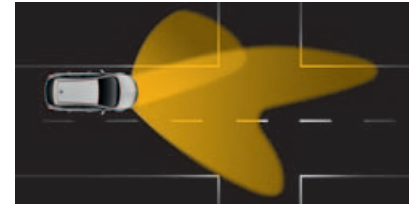

High beam with assist (over 25mph).

Automatically switches from high to low beam as it detects oncoming or proceeding vehicles.

Dynamic curve light (any speed).

Activated by steering angle and speed, the headlights swivel up to 15 degrees into the bend.

Static cornering light (up to 25mph, also when reversing).

Throws light 90 degrees left or right for enhanced lateral vision..

➤ SAFEGUARD YOUR INTERESTS

1. Systematic safety. New Astra combines advanced electronic options with proven safety features like front, side and curtain airbags and reinforced passenger safety cell with pre-defined deformation zones. ISOFIX child seat restraint fittings are standard on the outer rear seats of all models.

2. Rear View Camera Pack. The pack also includes the Navi 600 satellite navigation system. Mounted in the tailgate handle, the rear view camera gives you a clear view of the area behind the car, displaying your rear bumper as a useful point of reference. The picture shows up on the Navi 600 screen, with horizontal lines overlaid as a scale so you can easily judge the distance to objects and other cars. You quickly appreciate just how easy it is to reverse the car safely. Optional at extra cost on most models.

3. Hill Start Assist. Standard on SRi, BiTurbo, SE, Elite, and all automatic models – Hill Start Assist stops you rolling back unintentionally on steep hills, by automatically releasing the brake at just the right moment when pulling away on a gradient.

The New Astra line-up offers a host of class-leading, state-of-the-art electronic driver aids to make driving a whole lot easier – and safer too. Some of these options utilise the cutting-edge front camera system that employs advanced technology to scan the road ahead.

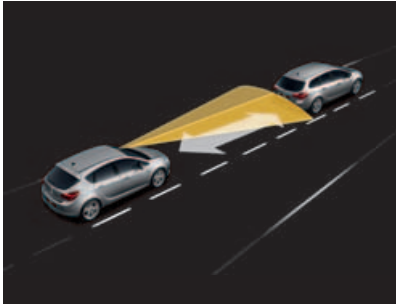

1

2

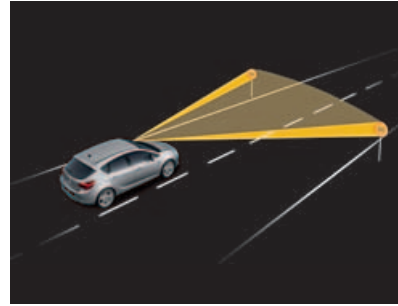

3

Forward Collision Alert (FCA).

Available as part of the optional Driving Assistance Pack (SRi, BiTurbo, SE and Elite models), FCA constantly shows the distance to the leading vehicle in the instrument panel, helping you to maintain a safe distance. In addition, FCA – active when the car is moving faster than 20mph – gives visual and audible warnings if you approach a slower-moving vehicle too fast.

Traffic Sign Recognition (TSR).

Utilising the front camera function, this clever system makes sure you're constantly made aware of speed limits, even when temporary signs are put up. TSR continually monitors road signs, and gives you a warning if you unintentionally stray over the limit. It can even read and display motorway electronic signs related to speed limits like rain or snow warnings. Available as part of the optional Driving Assistance Pack (SRi, BiTurbo, SE and Elite models).

Lane Departure Warning (LDW).

LDW uses the front camera system to recognise lane marking lines, and emits an audible warning if your vehicle leaves its lane unintentionally (i.e. without you signalling), preventing potential accidents and reminding you of inattention or tiredness. The LDW system can be deactivated via a facial switch. Available as part of the optional Driving Assistance Pack (SRi, BiTurbo, SE and Elite models).

➤ A MODE FOR EVERY MOOD

Optional FlexRide chassis settings. With a mere touch of a button, this optional feature allows you to change the car's whole driving dynamics – from 'Sport' to 'Tour' and back again. Using Continuous Damping Control (CDC) technology, FlexRide automatically adjusts the dampers for excellent grip. In 'Tour' mode, it chooses the best settings for gentler straight-line driving. Switch to 'Sport' mode and it instantly sharpens the response of the speed-sensitive steering, accelerator and automatic transmission (if fitted). It also changes the colour of the ambient instrument lighting – from a cool white to a more dynamic red effect.

Smooth, precise and above all responsive, the chassis epitomises the stable and spirited feel that characterises the car as a whole. The optional FlexRide adaptive stability technology lets you adjust ride settings from one journey to the next to suit your individual driving style.

Astra SRi

➤ MAXIMISE YOUR RESOURCES

The New Astra ecoFLEX models provide conclusive proof that you can save money on your motoring without the need to compromise on outright performance and driveability.

The ecoFLEX range is terrific to drive and offers superb fuel economy and performance without the need to make concessions on driving dynamics. Models like the New Astra Tech Line 1.7CDTi 16v (110PS and 130PS) ecoFLEX Start/Stop, for example, deliver up to 76.3mpg (combined) and feature CO₂ emissions as low as just 99g/km, which, considering their power and performance, mean they rank amongst the lowest in their class. So not only do you save money on Vehicle Excise Duty (VED) and lower company car taxation but the improved fuel economy means you'll save on your fuel bills too.

And we haven't stopped there. We have been researching ways of developing new cars that are more efficient than ever before. The new Vauxhall Ampera*, Car of the Year 2012, is an Extended-Range Electric Vehicle (E-REV) that can drive up to 50 miles on battery power alone and over 300 miles utilising an on-board electric generator system.

But then it's not just our cars that can help you save money. You can help yourself by simply adopting smarter driving techniques. Smooth throttle control, changing gear at around 2000rpm when accelerating and lifting off the accelerator earlier in order to slow your vehicle down, all contribute to efficient motoring.

New Astra Hatchback and Sports Tourer. Not only are they perfect for your lifestyle – they suit your financial plans too.

*For more information on Vauxhall Ampera please visit www.vauxhall.co.uk/ampera

Scan this QR code with your smartphone, watch our Eco Driving tips video and start saving.

➤ POWER WITH A SENSE OF RESPONSIBILITY

The concept of choice is central to New Astra and the wide range of engines available fully supports this principle. Options extend from the lively yet frugal 1.4i 16v VVT petrol unit to the remarkable new 195PS BiTurbo Start/Stop engine* – Vauxhall's most potent diesel unit ever. And with a choice of ecoFLEX models available – plus cutting edge Start/Stop technology to help reduce fuel bills in traffic – New Astra models are as responsible as they are responsive.

The choice is yours. Drivers can select from five powerful yet highly efficient petrol engines and ten hugely responsive turbo diesels, many matched with slick six-speed gearboxes or – on selected units – an optional six-speed automatic transmission. Petrol choice spans 87PS or 100PS 1.4i 16v VVT units, a free-revving 115PS 1.6i 16v VVT engine and powerful 1.4i 16v VVT Turbo and 1.6i 16v Turbo units, producing 140PS and 180PS respectively.

Diesel choice is equally impressive. Undisputed star of the show is the new 195PS BiTurbo diesel Start/Stop engine;* developing a sensational 400Nm, it features two staged turbochargers that work together in series to eliminate turbo lag, and providing incredible power combined with emissions as low as 134g/km. There is also a versatile 1.3CDTi 16v common rail diesel developing 95PS. A choice of

1.7CDTi 16v common rail diesels delivering 110PS and 130PS. Plus a highly flexible 2.0CDTi 16v common rail unit that's good for an impressive 165PS.

In many cases, the units can be specified with Vauxhall's proven fuel saving and emissions reducing Start/Stop technology. This innovative system switches the engine off when you stop at the lights or in traffic, then restarts it automatically once the clutch is depressed. A wide range of in-built safety checks ensures total peace-of-mind in all circumstances. Start/Stop is also an essential feature of our market-leading ecoFLEX models (99g/km Hatchback and 105g/km Sports Tourer) which employ advanced features including low rolling resistance tyres, lowered chassis, active aero shutter and 'Eco' instruments to limit emissions and reduce fuel consumption to the absolute minimum. Exact availability is identified on the individual model pages.

➤ SUPPORT YOU CAN RELY ON

The designers and engineers behind the New Astra line-up put serious thought into even the smallest details. It's these details that make all the difference to the travelling environment – and your overall sense of well-being. Adding to the whole experience, drivers can select from a host of comfort options including sophisticated dual-zone electronic climate control, a heated steering wheel and ergonomically designed, heated seats.

Ergonomic sports driver's seat. The perfect choice for long-distance drivers. Standard on Elite and optional on selected models, the seat adjusts to suit the driver's posture by letting you fine tune the lumbar adjustment and extending the seat cushion, giving your upper body and legs greater support where it's needed most. The seat has won the coveted AGR* seal of approval for helping to prevent the back pain and tension suffered by some car occupants.

*Aktion Gesunder Rücken e.V (AGR) is an independent panel of ergonomics experts and doctors based in Germany.

Driver's seat power lumbar

adjustment. Upgrade your car's seating with Seat Comfort Pack 1 and your Astra comes with power lumbar adjustment for the driver's seat (standard on Elite models). Drivers specifying Seat Comfort Pack 2 get power lumbar adjustment for the front passenger's seat, too.

Electronic Climate Control (ECC).

Providing constant control of the interior atmosphere via an onscreen display, this fully automatic system features Dual Zone settings so you can set the ideal temperature for either side of the car. A filter system traps pollen, dust and unpleasant odours. Standard on Elite and optional at extra cost on most other models.

Winter Pack. Keep your hands warm in a cold snap and enhance your grip with a leather-bound heated steering wheel. In addition the electrically heated front seats prove a welcoming comfort feature on cold mornings. Optional at extra cost.

Side Blind Spot Alert. Available as part of the optional Perimeter Protection Pack on selected models, this ultrasonic-based system helps prevent a potential collision with a vehicle in the neighbouring lane by continuously screening the blind spots on both sides of the car and providing an audible and visual warning if the indicator is set to change to a lane where another car is detected.

▶ LET'S STAY CONNECTED

Keep in touch, entertained and ahead of the queues with New Astra's premium in-car communication systems, complete with aux-in socket, optional DMB digital radio on most models and USB connection and Bluetooth® mobile phone system both available.

1. CD 400 stereo CD/radio. Standard on most models, the CD 400 raises the bar for in-car entertainment units in this class. Highlights include AM/FM stereo radio, 20 Watts per channel output via six speakers and Graphic Information Display. The unit plays CDs and MP3/WMA files and comes with an aux-in socket for portable music players. Bluetooth® mobile phone system and USB connectivity can be specified as options, while a DMB digital radio option is also available on most models (and is standard on Tech Line). DMB digital radio means digital quality sound, a broader range of stations, easier to find by name and improved track display info on some stations.

2. Infinity® Premium Sound System. The ultimate in audio performance, with 7 x 45 Watts (315 Watts total), seven premium speakers and an eight-inch subwoofer. The optional Infinity system digitises the audio signal so it can be fine tuned with Digital Sound Processing for accurate sound response. The difference is better all-round sound production under all driving conditions.

3. Plug-and-play USB and Bluetooth® wireless technology. A USB interface lets you hook up most MP3 players, smartphones or USB sticks to your New Astra's infotainment system and access music, podcasts and other files via the steering wheel remote controls. With optional Bluetooth® technology you get hands-free operation of most mobile phones. Standard on Tech Line and Energy, the system is optional on most other models.

4. Navi 600 satellite navigation system with DMB digital radio. With its seven-inch high resolution colour display and sophisticated audio pedigree, the Navi 600 brings SD card-based memory technology within easy reach of the driver. Navigation data and Points of Interest information is stored on the handy SD-card; this enables high-speed access and allows universal networking with mobile devices and digital data media. Beside fastest and shortest route, the most economical journey can be selected. Standard on Tech Line, optional at extra cost on most other models.

Other highlights include:

- CD player with MP3 format
- AM/FM stereo radio with 36 station presets
- 20 Watts per channel output and seven speakers
- Steering wheel mounted audio controls

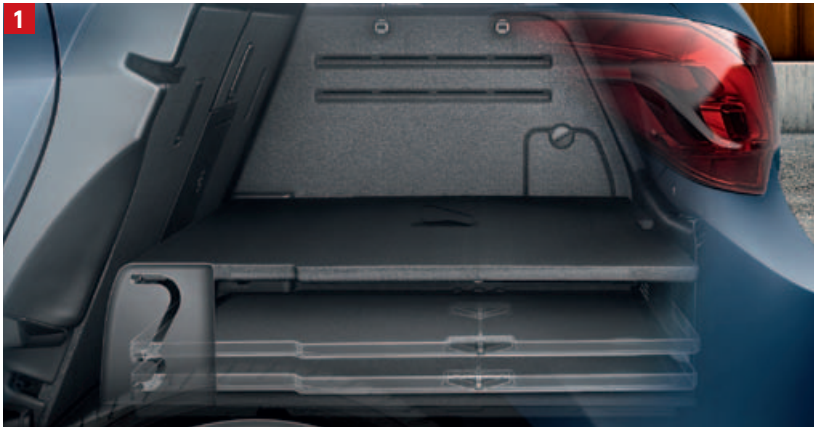

➤ SPACE-MAKING MADE EASY

Flexible, versatile and packed with clever storage ideas – Vauxhall models are famous for combining easy access with user-friendly features, and New Astra more than lives up to the billing. Unique Vauxhall innovations like the optional Flex Floor* and accessory FlexOrganiser®** system of nets, hooks and dividers help keep your New Astra neat, tidy and adaptable to whatever you want to do.

FlexFold automatic seat folding system.

Optional at extra cost on Sports Tourer models, this ingenious feature makes folding the rear seats so simple. Seat back release buttons are located in the rear side walls on each side of the load space. Just one touch of the button and the rear seat backs automatically fold forward.

1. Flex Floor luggage compartment.* The 5-door Hatchback model has space for 351 litres of luggage – extendable to 1216 litres with the 60/40 split-folding rear seat – Astra Hatchback also ranks among the roomiest vehicles in its class. And with our Flex Floor system, optional at extra cost – allowing the load floor to be mounted level with the rear sill or to the folded rear seats – it's easy to load and unload too.

2. Front passenger's underseat storage facility. In addition to a generously sized moulding for a 1.5-litre bottle on the inside of the door, you can store items you don't need quite so often in this practical drawer that slides out from under the front passenger seat. Optional as part of Interior Versatility Pack.

*Available for Hatchback models only. **Available for Sports Tourer models only.

CHOICES TO INSPIRE YOU

New Astra is available in Hatchback and Sports Tourer variants, plus of course, the exciting Astra GTC. Depending on your choice of body style, you can now select from nine different trim levels – Expression, ES, Exclusiv, SRi, BiTurbo, SE and Elite models as well as our fleet-focused Tech Line model. Then there's our Energy Special Edition model featuring LED daytime running lights, leather-covered steering wheel, Bluetooth® mobile phone system plus a CD player with a USB plug-in for your MP3 player and stunning alloy wheels too. For details of the Astra GTC featured on page 12, please ask your retailer for a copy of the Astra GTC brochure or log on to www.astragtc.co.uk

**Not available on 1.4i 16v VVT (100PS), 1.7CDTi 16v (110/130PS) 99g/km Hatchback and 105g/km Sports Tourer models.

†Not available on 1.3CDTi 16v or 1.7CDTi 16v (110/130PS) Start/Stop 99g/km Hatchback and 105g/km Sports Tourer models.

All New Astra models come with emergency tyre inflation kits as standard. Space-saver and full-size spare wheels are optional at extra cost, depending on model.

Please note: Optional wheels can result in higher fuel consumption and CO₂ emissions. Please refer to the Price and Specification Guide for more information.

➤ ACCESSORIES

Your New Astra is engineered to handle just about anything you throw at it. But when your routine changes and there's something specific you need to meet the new challenge, the wide range of Genuine Vauxhall Accessories is guaranteed to deliver a solution. Please check with your retailer for more information, or visit www.vauxhall.co.uk/accessories

FlexOrganiser® system. In conjunction with the accessory FlexRails® that can be mounted on either side of the luggage bay of your Sports Tourer, the practical FlexOrganiser® system makes it easy to keep things neat and tidy in the back. In addition to **1** a robust storage box for breakables or perishables, you can also attach **2** a flexible restraining net.

3. Hard cargo tray. When you have lots of little items to load, this made-to-measure liner is a must – it lets you lift everything in and out of your boot in one go. High-edged, flexible and washable, the cargo tray also has a non-skid surface to prevent loads from slipping – and help you keep the boot area clean and tidy.

Now you are able to browse all of the Genuine Vauxhall Accessories range with just the click of a button. Scan this QR code with

your smartphone for more information. Don't forget to download a QR reader from your app store first.

4. Roof base carrier with Thule roof box. Whether you're playing sport, embarking on a family holiday or simply making the most of your precious leisure time outdoors, even your New Astra's vast load area might not be enough to accommodate all your gear. The Thule roof box should take care of larger items that don't fit inside the car.

5. iPad cradle. This purpose-designed cradle provides secure and convenient in-vehicle location of an iPad 2 or 3. You can also revolve it 360° and tilt it by 15° for perfect on-the-move viewing.

6. Floor mats. Hard-wearing floor mats provide extra protection to keep your fitted carpets as clean as the day you brought your car home.

➤ EXTERIOR COLOURS

With its sculpted shape and athletic lines, New Astra is the perfect blank canvas for our carefully selected range of contemporary exterior colours – each one reflecting the car's unique sense of style. So you're sure to find one that perfectly complements your own taste, lifestyle and personality.

Fuel consumption and CO₂ emission data complies with the relevant EU testing regulations used by vehicle manufacturers to enable comparisons between different models. **Important:** Please note fuel consumption can be affected by many factors including driving style, road and traffic conditions, vehicle mileage and standard of maintenance. In addition these results relate to the particular vehicle tested, inevitably there will be differences between individual vehicles of the same model.

Vauxhall Lifetime Warranty

We're so confident in Vauxhall quality and reliability that we are now able to offer a lifetime warranty. Available to the first owner of all new Vauxhall passenger cars, it's valid for the lifetime of the vehicle up to a maximum of 100,000 miles[†]. In addition, our warranty also includes Vauxhall Assistance for 12 months from first registration and six years body panel anti-perforation warranty. Full details of Vauxhall's warranties including terms, conditions and exclusions can be obtained through any authorised Vauxhall retailer or go to: www.vauxhall.co.uk/warranty

LIFETIME
WARRANTY 100,000 MILE

*The free 3 Day Test Drive programme is open to Company Car Drivers and excludes fuel and lubricants, congestion charges, parking and speeding fines and the £250 insurance excess (if applicable). It features a wide selection of models from the Vauxhall range (excluding all VXR models and Commercial Vehicles and subject to availability). Drivers must be aged 25 years or over, have held a full driving licence for at least a year and hold a major credit card. You will need to have your driving licence (and proof of identity (i.e. passport) where the driving licence is not a photocard licence) when your car is delivered. While every effort will be made to ensure that at least 3 days are provided for the test drive, this cannot always be guaranteed due to delivery and collection dates and timings. Available for UK Mainland only. Terms and conditions apply. **Telephone lines open Monday-Friday 9.00am to 5.00pm excluding Bank Holidays. Calls may be recorded or monitored for quality and/or training purposes.

[†]Vauxhall Lifetime Warranty covers lifetime ownership of first car owner, 100,000 mile limit, annual check required. The warranty excludes wear and tear and serviceable items and the vehicle must be serviced in accordance with the manufacturer's servicing schedule to continue the lifetime warranty. Terms and conditions apply. Offer available to all Vauxhall passenger cars (this offer does not apply to car-derived vans) from 1st August 2010.

Every effort has been made to ensure that the contents of this publication were accurate and up-to-date at the time of publication (April 2013). Vauxhall vehicles are equipped with components manufactured by various General Motors operating units and outside suppliers. The Company reserves the right to alter specifications and withdraw products from sale without notice. Any such alterations will be notified to Vauxhall retailers at the earliest opportunity, please consult your local retailer for the latest information. The specifications detailed within this brochure are not necessarily applicable to alternative models such as Special Editions. Details of any such models will be contained in specific literature or found on the Vauxhall website. Please note that Vauxhall retailers are not the agents of General Motors UK Limited and are not authorised to bind the Company by any specific or implied undertaking or representation. It is advisable to ensure that your motor insurance policy provides adequate cover for additional fitted options and accessories. Please note accessories shown are for illustrative purposes only. As part of Vauxhall's policy of environmental care, this brochure is printed on paper manufactured using Elemental Chlorine Free pulps from specially farmed, sustainable timber resources. All rights reserved. No part of this publication may be reproduced in any form or by any means, without the prior written permission of General Motors UK Limited.
